## MY LEVITON APP GUIDE FOR DECORA SMART WI-FI

# Create a My Leviton Residence

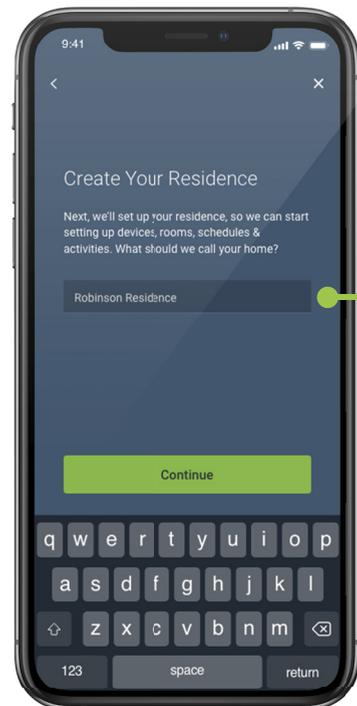

Download the My Leviton App to your iOS or Android device and create your account to begin the set up of your smart home.

## Name your Residence.

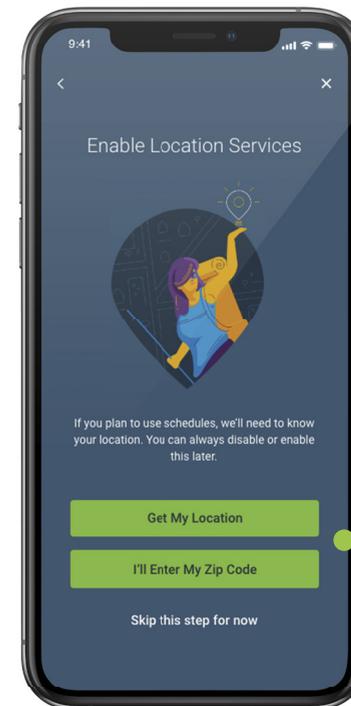

## Enable Location or enter your zip code.

1

Enter name of the residence

2

The location is required to set schedules based on sunrise and sunset

# Adding a Decora Smart Device

Add your Decora Smart device by selecting from the menu or scanning the product barcode on the package. Repeat and continue this process until all installed Decora Smart Wi-Fi products have been set up.

## Add device and follow prompts in App.

1

On the main screen, press the Plus button. Then, choose the type of device you are setting up from the menu.

2a

In some instances, there may be more than one type of device. Choose which you are using.

2b

Or, scan the barcode on the Decora Smart Wi-Fi device package

# Create a Schedule

Creating a schedule allows you to set your lights, fans and other small appliances to automatically turn on and off at specific times. You can set up one or multiple schedules that activate one or more Decora Smart Wi-Fi devices at a time. If a schedule is turned ON, it will run automatically until it is turned OFF.

## Setting up a schedule

**1** Select one or more devices to set on a schedule

Set the device to turn on, off, or set to a level at the scheduled time.

**2** Set a start time by choosing Sunrise, Sunset or a specific time

Optionally, set an end time by choosing Sunrise, Sunset or a specific time

Select the Day or Days of the week for the schedule to run

**3** Create a name for the schedule

**4** Schedule overview where you can turn schedule on and off

# Command Multiple Devices with Activities

Creating an activity allows you to set your lights, fans and other small appliances to automatically activate upon command. You can set up one or multiple activities that include one or more Decora Smart Wi-Fi devices at a time. The activity will only run if the assigned icon is pressed or by voice command using a voice assistant.

## Setting up an Activity

**1** Select one or more devices to set an activity. Set the device to turn on, off, or set to a level when the Activity runs.

**2** Choose the icon that best illustrates the activity.

**3** Create a name for the activity.

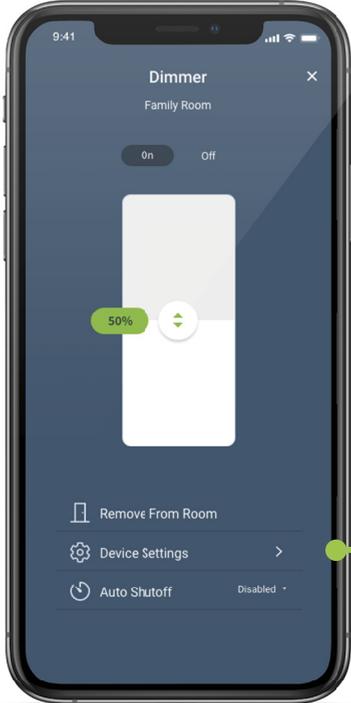

**4** The final screen shows the 'Activities' menu with the newly created activity, 'Dinner Time', listed.

# Advanced Decora Smart Wi-Fi Device Settings

Advanced settings in the My Leviton App allow you to access the features of each device such as LED bulb behavior, bulb type, auto-off, fade rates, min/max light level and more.

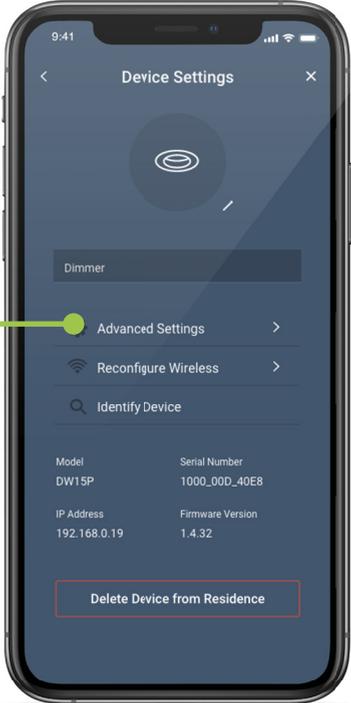

## Customize Your Lighting Experience

1

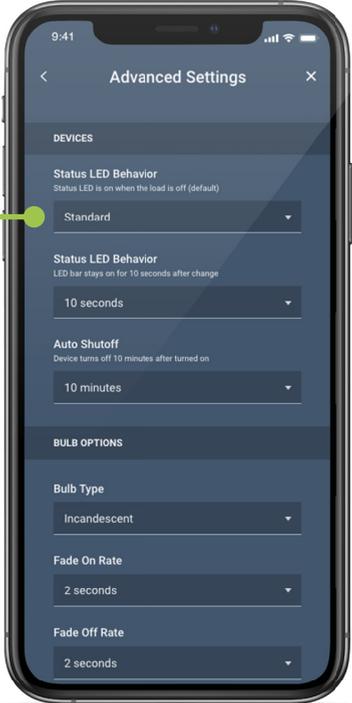

To access the advanced Dimmer controls, press “Device Settings” and then “Advanced Settings”.

2

Choose the feature you wish to change and follow prompts in app to customize specific settings for each.

3

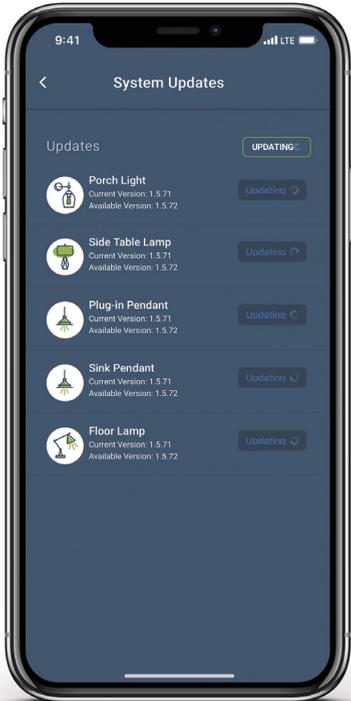

# Firmware Updates and Tech Support

Occasionally there may be firmware updates needed to your Decora Smart Wi-Fi devices to help make them even smarter! Can't figure something out? We are here to help with technical assistance information available in the app.

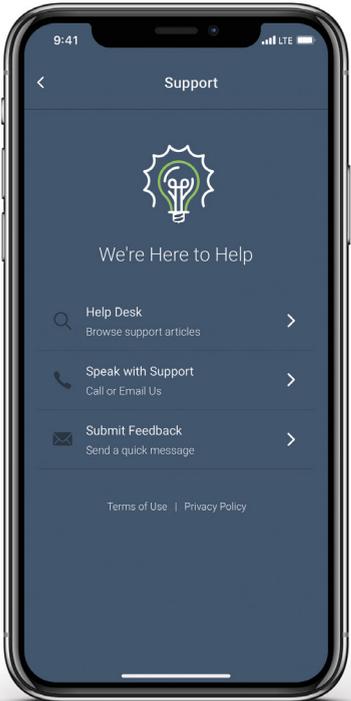

## Updates and Support

1

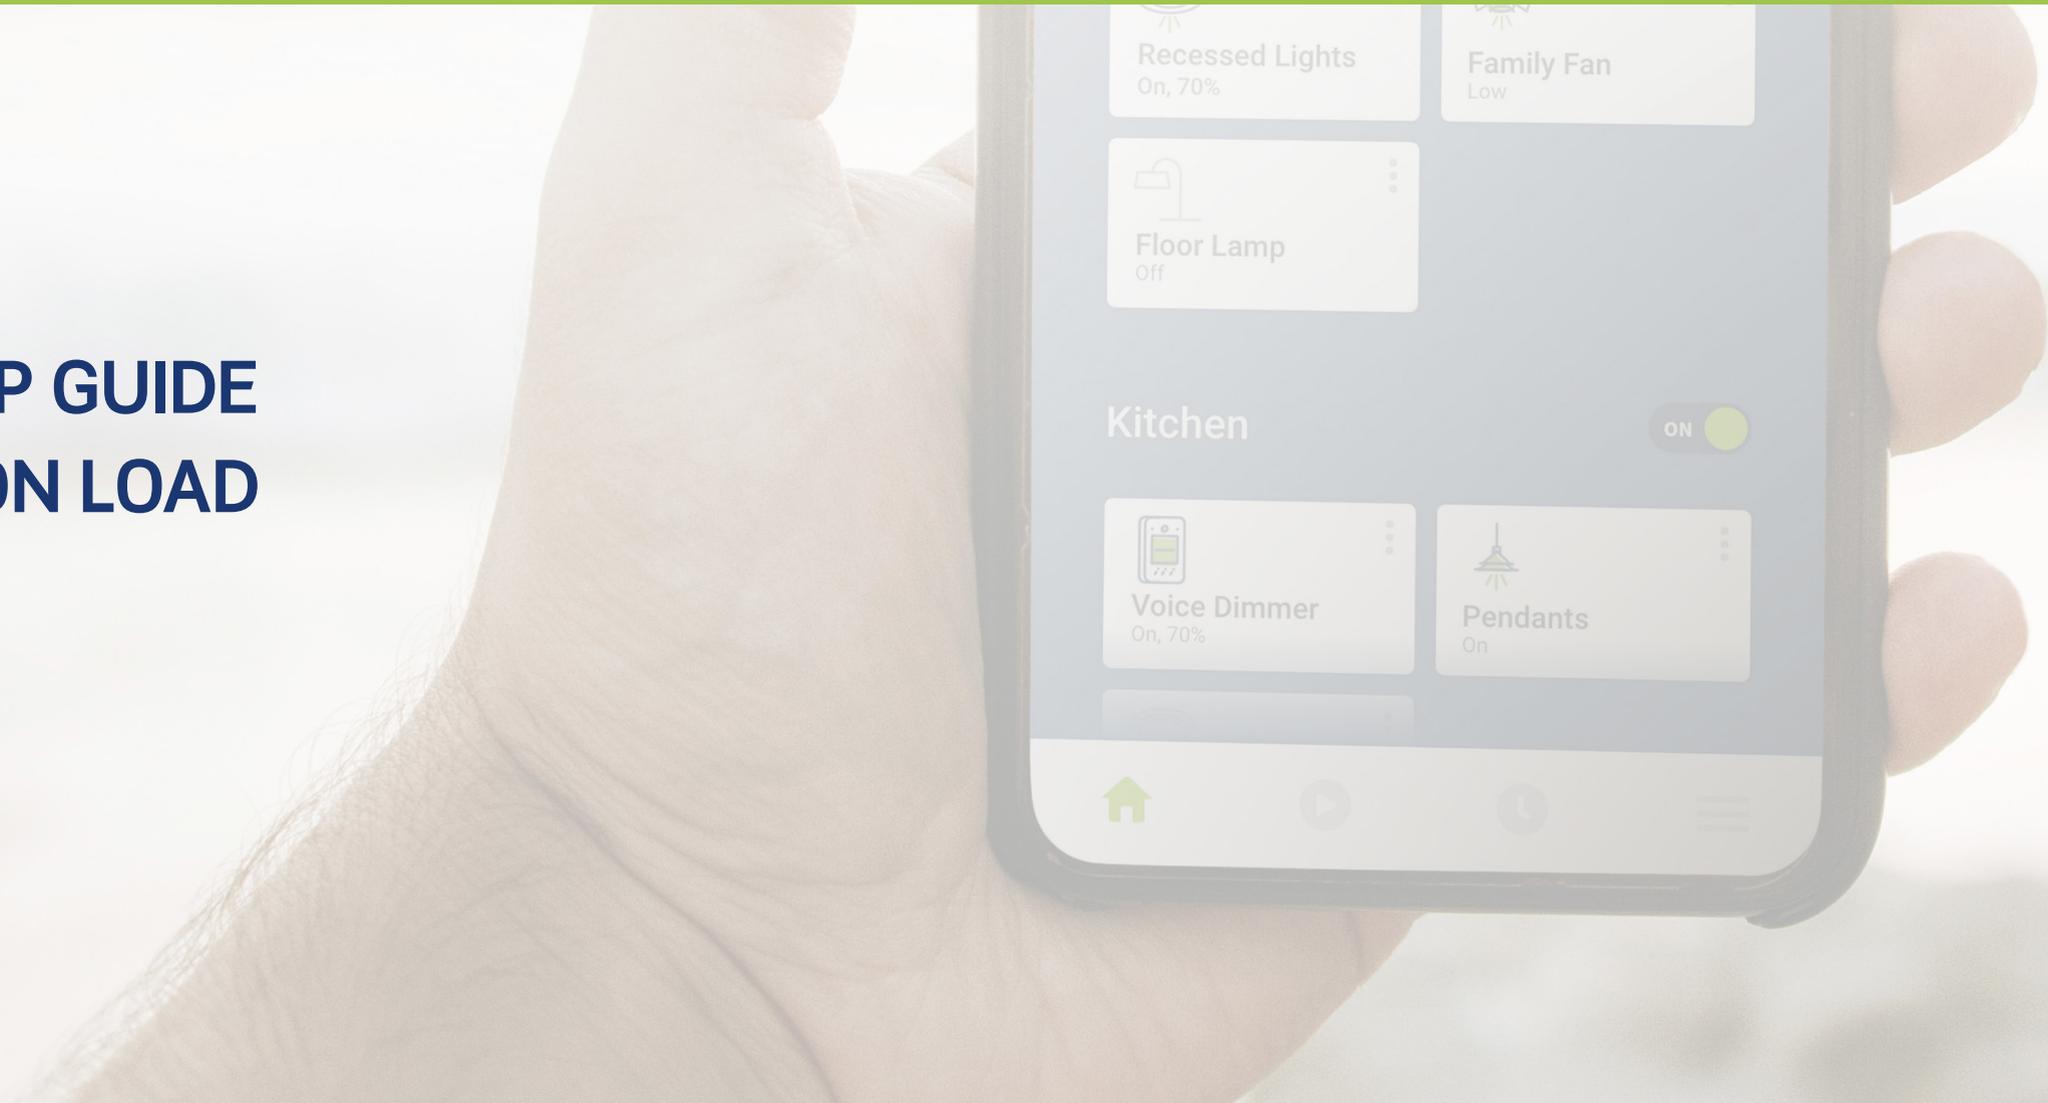

On the main screen of the app, firmware updates will be displayed at the top if they're available - click that icon. Update the firmware of individual devices one-by-one, or click "Update All" to update all connected devices.

1

Use the hamburger menu to access the in-app support tool. Use the in-app tools to connect with us for technical assistance. Or press the Feedback button to send us a message.

## MY LEVITON APP GUIDE FOR THE LEVITON LOAD CENTER SMART BREAKERS

# My Leviton App Guide

## Leviton Load Center Smart Breakers - Part 1

1

### My Leviton App

Log in to your My Leviton account. If you don't have one, download the My Leviton app from The App Store or the Google Play store and follow the steps to create an account.

2

### Adding a Load Center

If you need to add a load center, select the '+' sign in the top right to 'Add a Device' and select Leviton Load Center to add it to your residence. The app will walk you through the configuration process. During this process, you may give your circuit breakers custom names.

# My Leviton App Guide

## Part 2 – Home Screen

## Part 3 – Energy Usage

1

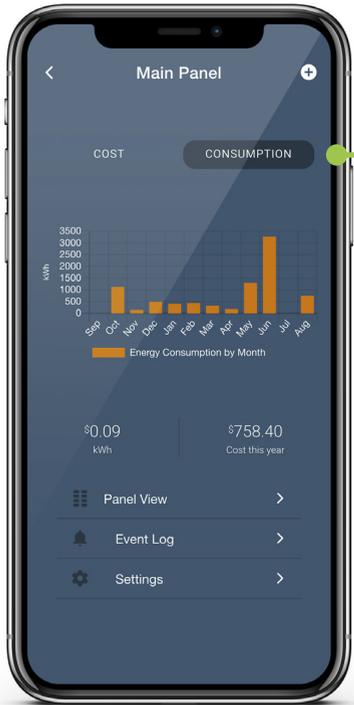

Leviton Load Center dashboard

The main screen for your Load Center shows you your current expenditures at a glance. From this screen you go into all of the various Load Center details and settings.

- Cost per month
- Phase Voltages
- Cost year to date
- Links to other features and settings are also available from this screen.
- You can change your electricity rate.

1

The total consumption and costs of energy used can be seen from the Consumption screen.

Toggle between kw/h energy consumption in a month-by-month chart or compare monthly total tabulations.

# My Leviton App Guide

## Part 4 – Breaker Details

1

Tap on the Breakers icon to view panel layout and access the breaker settings.

2

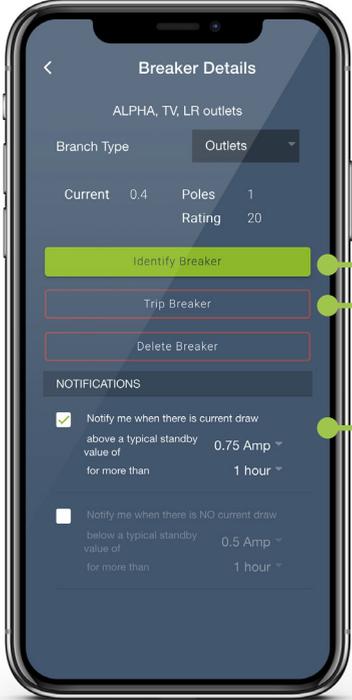

Tapping on a breaker opens a breaker details screen. From here you can view breaker info, rename it, set the position, edit notification settings, etc.

# My Leviton App Guide

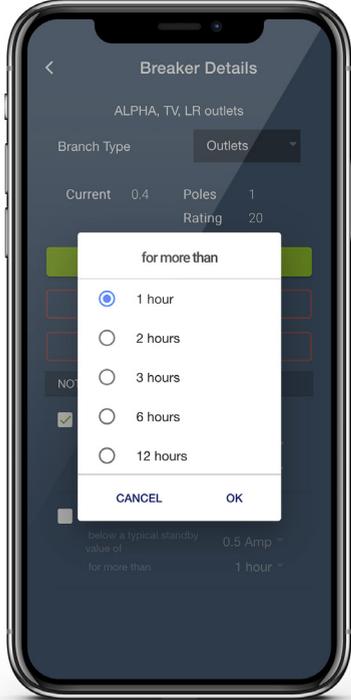

## Part 4 – Breaker Details

3

Identify makes the LED blink.  
Trip this Breaker must be manually reset.  
Deleting this Breaker will remove it from the app.  
Enabling notifications allows you to set the conditions for receiving notifications.

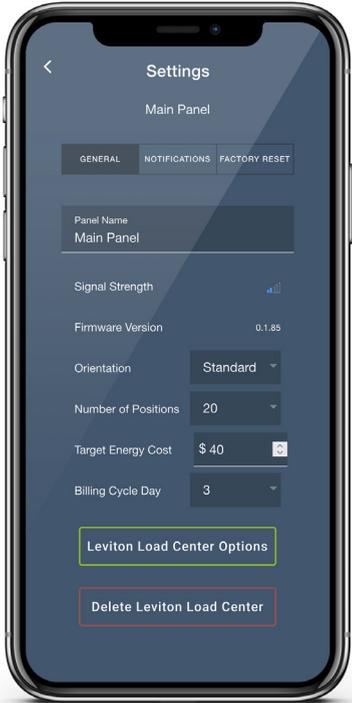

4

# My Leviton App Guide

## Part 5 – General Settings

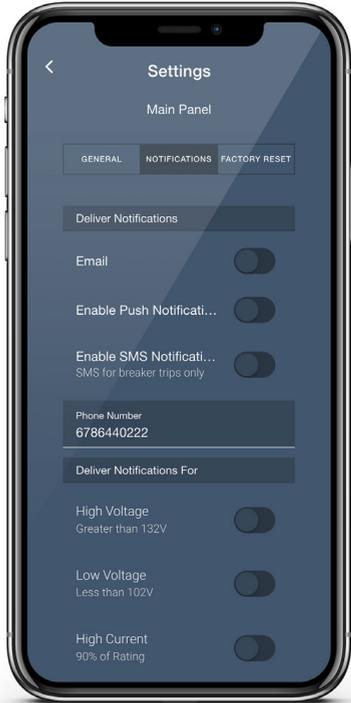

1

The General Settings tab allows you to view basic settings and system status.

## Part 6 – Notifications

1

Under a Load Center’s settings, the notifications tab allows you to set the conditions for receiving notifications.
