Mega step & Slip resistant tread call outs on the step

Mega Boot

Polypropylene copolymer upper **boot** protects the rails of your fiberglass.

Thick **non-marring** thermoplastic elastomer **tread** is **bonded** and mechanically fastened to the upper boot to create **a secure slip-resistant footing**.

Inside the boot has a unique open design that **allows** for quick and easy **visual inspection** of the ladder's rail

A	2-1/2-in
B	2-3/16-in
C	3-5/16-in
D	7/16-in
