

MODEL AW315

SAFETY FEATURE

A thermal overload protector is built in to prevent overheating. If an overheat temperature is reached, the Heater will automatically shut off. It can only resume operation when the user resets the unit.

RESET INSTRUCTIONS:

Unplug the Heater and wait 10 minutes for the Heater to cool down. After the Heater has cooled down, plug the unit into a 120V~ electrical outlet and follow the EZTouch™ Controls instructions described in this manual.

TROUBLE SHOOTING TIPS

If your heater shuts off unexpectedly or fails to operate, the previously mentioned safety feature may have been activated to prevent overheating (See Reset Instructions). Be sure the power cord is plugged into a working electrical outlet. Check your Temperature setting. The Heater may be off because it has reached the desired temperature setting. If your Heater runs for several minutes and shuts off repeatedly, your Heater may require cleaning. See Maintenance section below, or the EZclick™ Filter System instructions described in this manual. If you have a problem that can not be resolved by the steps listed above, contact Technical Assistance at 1-800-233-0268, Monday through Friday, between the hours of 8 a.m. and 5 p.m. EST.

MAINTENANCE

⚠ WARNING

To reduce the risk of electrical shock and fire please observe the following instructions. Cleaning the Heater regularly will help to maintain its efficiency.

- Always unplug the cord before moving, servicing or cleaning.
- NEVER place the Heater in or near water. DO NOT IMMERSE HEATER IN WATER.
- Clean the Heater only with a vacuum equipped with a brush attachment; the vacuum will remove the lint and dirt from the surface the Heater.
- Vacuum intake grills every two weeks; this will help to maintain the optimum Heater performance. See page 3.

- Use a toothbrush or other soft bristle brush to gently loosen any dirt not removed by the vacuum.
- NEVER attempt to take apart the Heater.
- Clean the body of the Heater with a soft cloth only.
- NEVER use ALCOHOL or SOLVENTS such as gasoline, benzene, paint thinner, or other harsh cleaners.
