

OUTDOOR LIVING SIX POINT PERFORMANCE TESTING

EACH OF OUR INDOOR/OUTDOOR AREA RUGS ARE MADE OF THE FINEST 100% POLYPROPYLENE AND ARE WATER, MOLD AND MILDEW RESISTANT, AS WELL AS UV STABILIZED FOR LONGER COLOR RETENTION.

Here is what we test for to assure that you are receiving the most durable indoor/outdoor living area rug in today's market:

1.
**SURFACE
FLAMMABILITY**
(Test: CFR 1630 FF1-70)

4.
**COLOR FASTNESS/
RESISTANCE
TO WATER**
(Test: AATCC 107)

2.
**PHTHALATES FREE
FROM NON-TOXIC
MATERIALS**
(Test: CPSIA)

5.
**COLOR FASTNESS
HIGH HUMIDITY
OZONE**
(Test: AATCC 129)

3.
**UV STABILIZATION/COLOR
FASTNESS TO LIGHT WITH
NOTED DEGRATATION**
(Test: AATCC 16 for 300)

6.
**FUNGAL (MOLD/MILDEW)
RESISTANCE**
(Test: AATCC 147)

PLEASE NOTE:

Though our indoor/outdoor performance area rugs go through an extensive six point performance testing process, we strongly recommend that your area rug be stored indoors during severe weather conditions.
