About This Manual

- This manual contains an introduction to this power station, and details on its operation, management, and maintenance. Please note that this manual may be updated without prior notice.
- The availability of certain accessories and features described in this manual may vary depending on your country or region.
- All images displayed in this manual are for demonstrative purposes only. Please refer to the actual product received. The following examples are based on the US version of EcoFlow DELTA 3 Classic.
- If you are reading this manual in PDF format, please note that you can access it online at EcoFlow Support for a better experience and the latest updates.

Overview

EcoFlow DELTA 3 Classic (hereinafter referred to as "DELTA 3 Classic", or "the power station") is a power station with a LiFePO₄ battery and a capacity of 1024Wh. It has multiple outputs, including standard AC ports, USB-A port and USB-C ports to support various appliances and devices. The variety of charging options allows you to easily switch between different methods based on your actual needs.
