

TEZA DOORS

POWDER COATED ALUMINIUM TREATMENT INSTRUCTIONS

Since aluminum is very corrosion resistant, it is only necessary with a decorative powder coat.

If the product unluckily gets scratched or damaged this will not spread, and does not degrade the product.

A repair lacquer can be used, after any loose paint is removed

Maintenance

Regular cleaning should be done with a cloth and lukewarm water.

If your outdoor products need an extra cleaning, an auto shampoo can be used. Please follow the instructions on the bottle.

Please avoid using any harsh detergents or solvents when cleaning the product.

Warranty

Thank you for choosing Teza Doors products and services.

At Teza Doors, we offer a five-year warranty on glass and a ten-year warranty on both framework and hardware.

Warranty is counted from the date the products are delivered to the purchaser. If your product is faulty, missing parts or damaged when received we can ensure Teza will cover the cost. Additional warranty is optional.

Teza is not responsible for accidental damage from improper use, storage, handling, modification or third party installations.

Thank you

Aiden Bohlouli
