All-in-One Beer Brewing System

8 Gal Volume & Intelligent Panel & Circulating Pump

- Our electric brewing system is ready to create your unique beers of pure-grain taste. The feature-rich control panel makes the entire brewing process more streamlined and inviting. It includes all the parts and accessories you need to set up a large or small-scale beer brewing. Whether brewing is your new hobby or a potential new product for your business, add this brewing system to your list and begin to explore the possibilities in the art of brewing.
- 9.2 Gal/35 L Brewing Pot
- Intelligent LCD Control Panel
- Full Saccharifying & Fast Cooling
- Effective Circulating Arm & Pump
- Accessible for All-Level Users

VEVOR®

Tough Equipment & Tools, Pay Less

VEVOR is a leading brand that specializes in equipment and tools. Along with thousands of motivated employees, VEVOR is dedicated to providing our customers with tough equipment & tools at incredibly low prices. Today, VEVOR has occupied markets of more than 200 countries with 10 million plus global members.

Why Choose VEVOR?

- Premium Tough Quality
- Incredibly Low Prices
- Fast & Secure Delivery
- 30-Day Free Returns
- 24/7 Attentive Service

EXTENSIVE BREWING CAPACITY

Extensive Brewing Capacity

The brew kettle measures 9.2 Gal / 35 L in capacity, and its total brewing volume reaches 8 Gal / 30 L, mashing up to 17.6 lbs of malt each time. Suitable for both light-duty at-home party use and heavy-duty commercial use.

EFFECTIVE COOLING COIL

Effective Cooling Coil

The stainless steel condensing coil is 28.8 ft / 8.8 m in overall length and 19.1 in / 48.5 cm in height. It will take over the cooling work after the wort in the inner pot has been boiled. Rapid cooling can be ensured.

FULLER SACCHARIFICATION

Fuller Saccharification

Automatic step mashing with 7 programmable stages is friendly to all-level users. You can precisely control the brewing process by programming each stage with individual temperatures and durations. About 18.7 lbs of malt can be saccharified each time.

FEATURE-RICH LCD DISPLAY

Feature-Rich LCD Display

The intelligent control panel combines various functions to simplify your brewing work. You can freely set the temperature, power, and time. Other features like auto/manual mode selection, recipe memory, and hops-adding reminder are also equipped.

CIRCULATING WATER PUMP

Circulating Water Pump

The circulating pump facilitates the smooth wort flow through the circulating arm, keeping the temperature in the brewing pot even. The pump can be controlled by an independent switch, and the flow rate can be adjusted as you wish.

BREW YOUR OWN BEER IN 7 STEPS

Brew Your Own Beer in 7 Steps

Disinfect, mash, saccharify, filter, boil, cool, and ferment. Our all-in-one beer brewing system helps you finish the whole brewing process yourself anywhere. Don't hesitate to start making your customized beers.

Specifications

- Model: DM-N30
- Voltage: 110V / 60Hz
- Pot Capacity: 9.2 Gal / 35 L
- Total Brewing Capacity: 8 Gal / 30 L
- Power Range: 100-1800W (Interval: 100W)
- Temp Range: 25-100°C (±10°C Calibration)
- Time Range: 1-180 minutes
- Material: 304 Stainless Steel (0.02-inch Thick)
- Brewing Pot Dimensions: Φ14x24.2 in / Φ35.5x61.5 cm
- Inner Pot Dimensions: Φ13.2x14.6 in / Φ33.5x37 cm
- Condensing Coil Size (L X H): 28.8 ft x 19.1 in / 8.8 m x 48.5 cm
- Product Dimensions: 16.5x14.0x32.3 in / 42.0x35.5x82 cm
- Package Weight: 32.4 lbs / 14.7 kg

Package Content

- 1 x Brewing Pot
- 1 x Inner Pot
- 1 x Circulating Pump
- 1 x Circulating Arm
- 1 x Filter Screen
- 1 x Condensing Coil
- 1 x User Manual
