

Instructions / Assembly

Product Name

6x3x1 FT Metal Raised Garden Bed Outdoor Reinforced Galvanized Rustproof
Colored Steel Planter Box

Item Code

W2505P285236

Package Contents

-

4 × Long Side Panels

-

-

2 × Short Side Panels

-

-

4 × Corner Connectors

-

-

2 × Reinforcing Rods

-

-

1 Set of Screws & Nuts (with spares)

-

-

1 × Pair of Installation Gloves

-
-

1 × Instruction Manual

-
-

Tools Required (Not Included)

-

Phillips Head Screwdriver

-
-

Wrench (optional, for tightening nuts)

-
-

Assembly Steps

1.

Choose Location

2.

-

Select a flat, stable area in your backyard or garden with good drainage.

-
-

Ensure the chosen site receives adequate sunlight for your plants.

-

3.

Prepare Panels

4.

-

Lay out all panels (long and short sides) on the ground.

-

-

Wear the included gloves to protect your hands from metal edges.

-

5.

Assemble Frame

6.

-

Position 2 long side panels parallel to each other.

-

-

Attach 1 short side panel between them using screws and corner connectors.

-

-

Repeat with the second short side panel to form a rectangle.

-

7.

Secure Corners

8.

-

Tighten all screws at the corner connectors to ensure stability.

-

-

Make sure the panels are aligned before final tightening.

-

9.

Install Reinforcing Rods

10.

-

Place the reinforcing rods across the width of the bed, connecting both long side panels.

-

-

Secure with screws to prevent bulging when filled with soil.

-

11.

Check Stability

12.

-

Double-check all screws and nuts are tightened.

-

-

The bed should sit level and firm on the ground.

○

Safety & Maintenance Tips

-

Safety: Always wear gloves when handling panels. Edges are hemmed but can still cause scratches if handled carelessly.

-

-

Soil Filling: Recommended maximum soil capacity is **20.5 cubic feet**. Distribute soil evenly to avoid panel strain.

-

-

Maintenance:

-

-

- Check screws and reinforcing rods periodically, especially after heavy rain or soil movement.

-

-

- Wipe panels clean occasionally to prevent dirt buildup.

-

-

Longevity: Galvanized steel with baking varnish is rust- and weather-resistant, but keeping the panels free from standing water will extend durability.

-

Dimensions

-

Assembled Size: **74.6" L × 35.4" W × 13.4" H**

-

-

Weight: **12.8 lbs**

-

-

Capacity: **20.5 cubic feet of soil**

-
