

Everbilt Housewrap Data Sheet

SKU#	1000001507	1000051399
Item	9'x150' Housewrap	3'x100' Housewrap
Product Description	Everbilt Housewrap is an ICC-ES evaluated, micro-perforated weather resistive barrier; It is made of high-density polyethylene(HDPE) woven fabric coated on both sides with UV-treated, low-density Polyethylene(LDPE) coating	Everbilt Housewrap is an ICC-ES evaluated, micro-perforated weather resistive barrier; It is made of high-density polyethylene(HDPE) woven fabric coated on both sides with UV-treated, low-density Polyethylene(LDPE) coating
Color	White	White
Weight	2.24oz/yd ²	2.24oz/yd ²
Thickness	4.8mil(0.12mm)	4.8mil(0.12mm)
Material	Polyethylene	Polyethylene
Structure	Woven	Woven
Tensile Strength(MD)(ASTM D828)	43lb/in	43lb/in
Tensile Strength(CD)(ASTM D828)	45lb/in	45lb/in
Water Resistance(ASTM D779)	Pass	Pass
Water Vapor Transmission(ASTM E 96)	11 Perms	11 Perms
Flame Spread Index(ASTM E84)	Class A	Class A
Smoke Developed Index(ASTM E84)	Class A	Class A
UV Resistance(AC 38)	Up to 6 months	Up to 6 months
Flexibility(AC 38)	No Cracking	No Cracking
ICC-ES Approved	ESR-2955	ESR-2955
