

# READ BEFORE OPENING

---

- 1** To begin enjoying your new topper, simply remove plastic packaging. Be careful not to cut through to the topper.
- 2** Place topper on a flat surface in a well-ventilated room and allow 48 hours for expansion.
- 3** Enjoy your new topper.

Due to the unique properties of memory foam, dimensions after expansion may vary; this is normal and will not affect the performance of your new topper.

New memory foam may initially have a slight odor; it is completely harmless and will dissipate over a short time with regular use.

Discoloration to memory foam may appear over time due to oxidization. Oxidization is a natural process that occurs when memory foam is exposed to light and will not affect the performance of your topper.
