

RE-COVER™

re·cov·er [ri kúvver]

- 1) regain something: to get back something previously lost
- 2) an innovative new option for laminate combining a vertical grade laminate and adhesive into one product

It might just be the most economical and practical way to refresh a dated cash wrap, store fixture, or hot pink bathroom counter top that seemed like such a good idea back in '84.

your time

Just three easy steps can transform a space

your style

Quickly replace a dated design with any standard grade laminate from Wilsonart's vast product line

your costs

- Use existing fixtures
- Minimize business disruption
- Shorten fabrication time

your planet

- Reusing fixtures eliminates waste
- No added VOC's into the atmosphere or work environment

Features and Benefits

- Apply fresh new laminate surfacing over existing melamine surfaces or traditional substrates
- Laminate on site quickly and easily
- Low VOC and flammability

Recommended Applications

- Designed to be used in interior applications
- Should be bonded to a suitable substrate such as particleboard, medium density fiberboard, plywood with one A face, previously bonded high pressure decorative laminate, or low pressure laminate
- May be installed on flat surfaces in both horizontal (in areas of low heat) and vertical applications
