

Care and Cleaning

GENERAL CARE

- □ Place mats and area rugs at main entrances to minimize abrasive debris that may be tracked in on shoes.
- □ Place protective pads under furniture legs and other movable furniture.
- □ Use protective mats under wheeled office-type chairs.
- □ Avoid using lacquers, polishes, waxes or detergent-based cleaners as they will leave a film on the surface of the floor and may cause irreparable damage. The surface of this flooring does not require refinishing and will maintain its original appearance. \Box Never use abrasive cleaners.
- □ This laminate flooring is water-resistant, but not waterproof. Care should be taken whenever the potential for moisture exposure is present.
- □ Do not leave a steam cleaner in the on position in one place for prolonged periods.

DAILY CLEANING

- □ Use a dust mop or vacuum with a hard surface attachment to remove dust, loose dirt, or debris.
- □ For a more thorough cleaning, where a cleaning solution may be required, use a water-based laminate floor cleaner. Lightly mist the cleaner into the soiled surface and wipe up immediately.
