Butt Joint

# Rustic Beech Hardwood Boards

**1x4  
Trim**  
2.33 sq.ft.  
per board

**1x6  
Reversible**  
3.375 sq.ft.  
per board

**1x8  
Reversible**  
4.54 sq.ft.  
per board

UFP-Edge Rustic Beech reversible shiplap and trim offers a beautiful tropical hardwood appearance, ideal for your interior walls and ceilings. Each board is wane-free with tight knots with a smooth reddish-brown wood grain surface. The Rustic Beech reversible shiplap offers two looks in one board. On one side the tongue and groove board offers a traditional shiplap look with a nickel gap space between the boards. The reverse side allows the boards to butt up tightly for a seamless look. Enhance your walls and ceilings with Rustic Beech trim for a finished look. Leave the boards unfinished or apply a clear coat or light stain to amplify its natural wood grain. This board is intended for indoor applications. If used in exterior applications, a wood protector sealant is required.

- Distinct and vibrant wood grain pattern
- Nickel gap or butt joint reveal
- Ideal for walls and ceilings
- Smooth, natural finish
- Apply stain or clear coat to enhance wood grain surface
- Sound knots and wood grain will vary per board
- Works well with hand and machine tools
- Always predrill for fasteners because of beech's hardness
