

Plate Compactors

MAX Performance. MAX Value. MAX Support.

Plate Compactors

Creates optimal density for the foundation of any paving project – reduces erosion and delivers extended durability.

FEATURES & BENEFITS

- 3 models for all of your small to medium sized projects.
- Stamped 1-piece plate that has no weld beads, preventing rust over time – plus better strength, flatness and smoothness.
- Fold-up transport wheels included, always attached for anytime use.
- 3-point mounted handle with rubber bushings absorbs vibration.
- Handle folds down for compact storage.
- Stamping pad available, acting as a buffer between plate and stamping surface for more delicate surfaces.
- Recoil ignition for easy, consistent starting.
- OHV-overhead valve engine for increased power and longevity.
- Centrifugal flyweight for superior engine control.

SPECIFICATIONS

	YC0850	YC1160	YC1390
Model Number	YC0850	YC1160	YC1390
Engine	YARDMAX	YARDMAX	Briggs & Stratton
