

MOTORCYCLE SCISSOR LIFT

Motorcycle Scissor Jack

Maintenance of your bike is an important part of owning it. The motorcycle jack whose working height range is 13.78-34.25 inches will save you a lot of hassle and a lot of aches and pains. Meanwhile, the non-slip padding, a locking bar, and fastening straps ensure your safety during work.

- Strong Support
- Ease of Use
- Non-Slip Rubber Mat
- Secure Fixation
- Stable & Portable

Why Choose VEVOR?

- Premium Tough Quality
- Incredibly Low Prices
- Fast & Secure Delivery
- 30-Day Free Returns
- 24/7 Attentive Service

Stable Structure

The heavy-duty steel and the scissor frame of the motorcycle stand will provide strong support, a maximum lift capacity of 300 lb, to your bike.

Easy to Use

The dirtbike stand features a lifting pedal and a lowering one controlling the hydraulic pressure. By stepping them, you can easily adjust the height of the vehicle.

Non-Slip Plate

The motorcycle lift has a rubber padding on its top that ensures the bike's secure grip and protection for the paintwork on its finish.

Safe Locking Bar

The hydraulic lift has several holes drilled on its sides where the locking bar should be placed. It will keep the frame still in case the pressure is somehow released.

Fastening Strap

The motorcycle jack will come with fastening straps used to tie your motorcycle and hook the buckle on the sides to give additional stability.

Compact Design

The round foot pads of the motorcycle scissor jack are sturdy. The compact size allows you to take it to your workplace and settle it down when you start working.

Specifications

- Color: Blue
- Lift Mechanism: Hydraulic
- Lift Capacity: 300 lb (136.08 kg)
- Working Height Range: 35-87 cm (13.78"-34.25")
