ABOUT US

2010

2015

2017

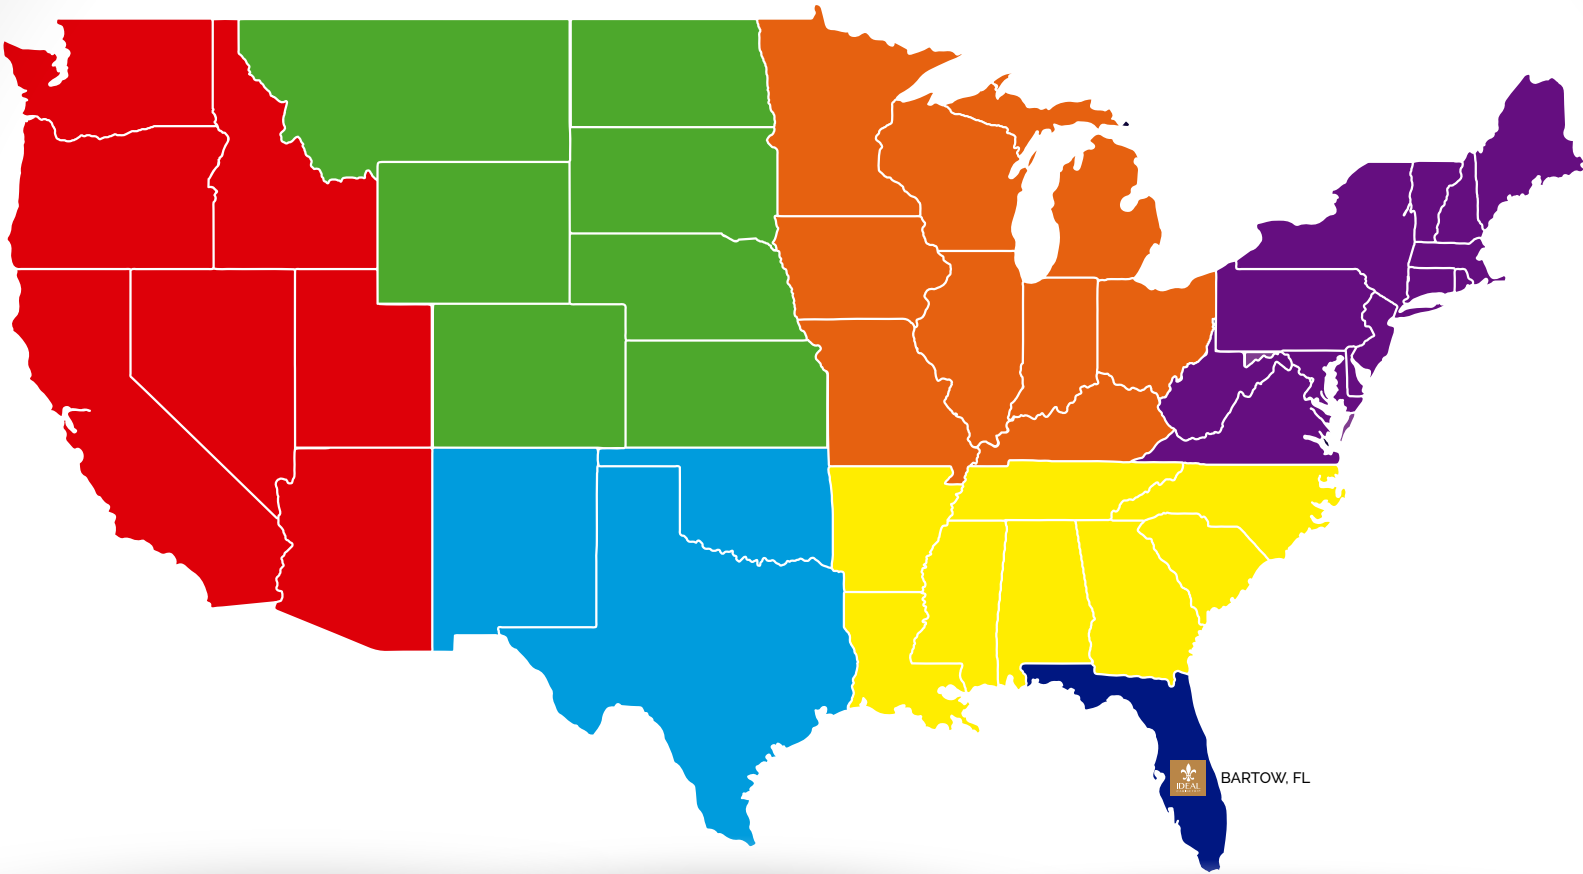

Ideal Cabinetry LLC, located in Bartow, FL. Initially producing all-plywood kitchen and bath cabinets in a 60,000 sq. ft. building, the factory has since expanded three times and now totals approximately 250,000 sq. ft. under roof. The latest expansion, completed in 2017, was custom built to house a fully automated robotic panel processing factory. From this building, all the panel components needed to build three cabinetry lines are supplied.

Today, in addition to semi-custom kitchen and bath cabinets, the factory produces Custom Closets and Weatherstrong outdoor cabinetry. And every order is produced and shipped in ten business days or less! However, we understand that producing a quality product in a short timeframe is only part of the equation. Providing the best, most responsive, customer experience is just as important. As the remodeling market evolves and changes, Ideal Cabinetry continues to grow and innovate to meet our customers changing tastes and needs. We look forward to showing you the Ideal Cabinetry difference!
