Roku Wireless Speakers
Premium sound made simple

50 word description

Roku Wireless Speakers are the easy way to upgrade the sound of your Roku TV™ or add surround sound to your Roku Smart Soundbar. Two speakers work in harmony to create a rich soundscape with room-filling audio, crystal clear dialogue, and dynamic bass.

Feature Bullets (long)

Powerful, premium audio

With high frequencies and dynamic bass, Roku Wireless Speakers are meticulously engineered to deliver full, clear sound and crisp dialogue with seamless audio/video sync to your Roku TV or Roku Smart Soundbar

Be immersed in your TV

Experience room-filling audio that moves with the action, conversations like you're in the room, and soundscapes that transport you to another world—it's cinematic sound for your entertainment

Surround Sound

Pair with your Roku Smart Soundbar for immersive surround sound

Elevate your music

Listen to your music come to life with clear highs and volume without distortion—simply tune into your favorite music channels or stream via Bluetooth®

Fine-tune your sound

Easily boost the volume of voices with Speech Clarity, lower loud commercials for consistent sound with Volume Leveling, and enjoy your TV without waking the house using Night Mode

Easy wireless setup

No need to run cables across your living room—just plug them into power and wirelessly connect them to your Roku TV or Roku Smart Soundbar

Bluetooth streaming

Stream music, podcasts, and more from a Bluetooth connected device to open up a world of sound

Automatic software updates

Get the most up-to-date software for your speakers without even thinking about it, so they'll always have the best possible sound and latest features

Easily mountable

Place your speakers on a shelf or easily mount them on walls or speaker stands.
