*Zamioculcas zamiifolia*

## ZZ PLANT

The ZZ plant is an easy growing and very hardy houseplant that thrive in a wide range of conditions. They are a great choice for those without a natural green-thumb, and require very little attention while maintaining their healthy glow.

**DOES BEST  
IN TEMPS  
OF 65-75°F**

**SLOW GROWER  
INDOORS UP TO  
24"-36".**

**BRIGHT TO MODERATE  
INDIRECT LIGHT,  
WILL TOLERATE  
LOW LIGHT &  
FLUORESCENT LIGHT.**

**WATER SPARINGLY  
WHEN SOIL IS DRY OR  
EVERY 7-14 DAYS.  
DO NOT OVER-WATER.**

**FERTILIZE IN SPRING  
& SUMMER WITH A  
DILUTED GENERAL  
HOUSEPLANT MIX.**

Ornamental Plant - Not for Consumption | TOXIC IF INGESTED - KEEP AWAY FROM PETS & CHILDREN
