#3	Split Sleeve	24
#4	Feet Leveler	4
#5	Swivel Caster	2
#6	Swivel Caster With Lock	2

Tools needed for Assembly

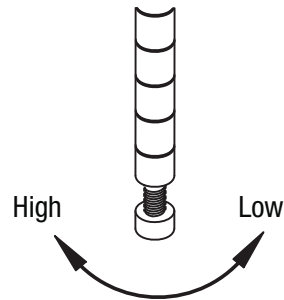

Wrench (1/2 inch) Rubber Mallet

**SAVE THESE INSTRUCTIONS**

This manual contains important safety and operating instructions.
Read all instructions and follow them with use of this products.

Step 1 (Stationary Option)

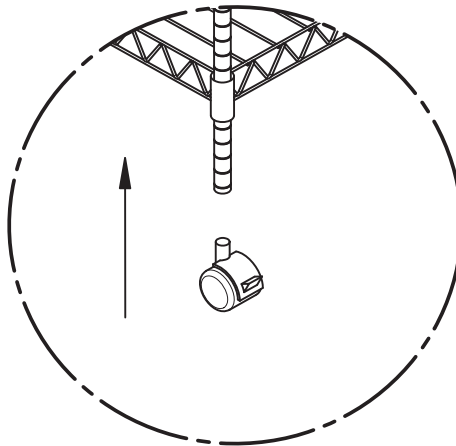

Screw the feet leveler (#4) into the bottom of each post (#2), turn each leveler clockwise until in place.

Note: Adjust the feet levelers to level the shelving unit.

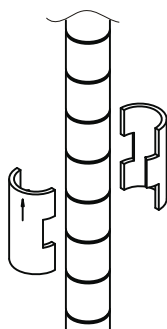

Step 1 (Mobile Option)

Screw each caster (#5 & #6) into the bottom of each post (#2), turn each caster clockwise until in place. Use the provided wrench to tighten all the way. Make sure the casters with lock (#6) are on the same side.

**Step 2**

Install the split sleeves (#3) at the desired height on each post (#2) as shown in the below diagram for the installation of the bottom shelf (#1). Slide the interlocking pieces of the split sleeve (#3) up and down until it is locked into place. Please follow the direction arrow when placing the split sleeves.

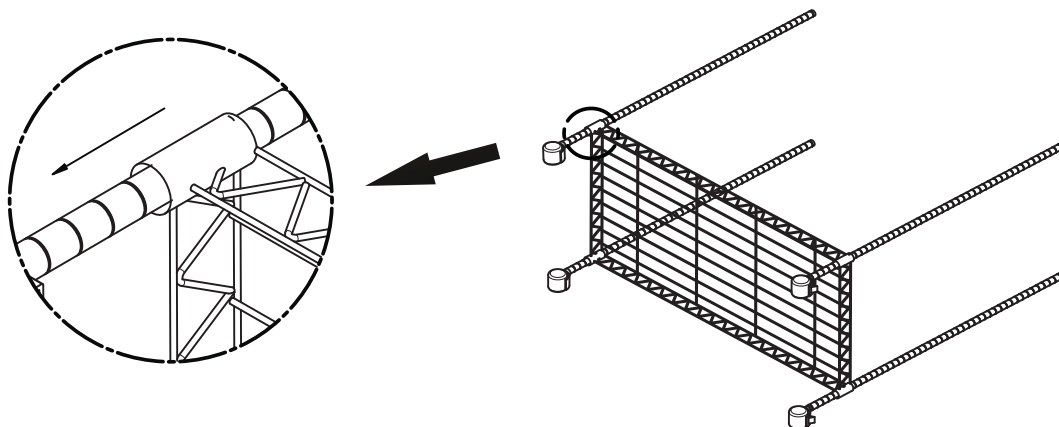

Each split sleeve (#3) needs to be placed at the same height on all four posts (#2).

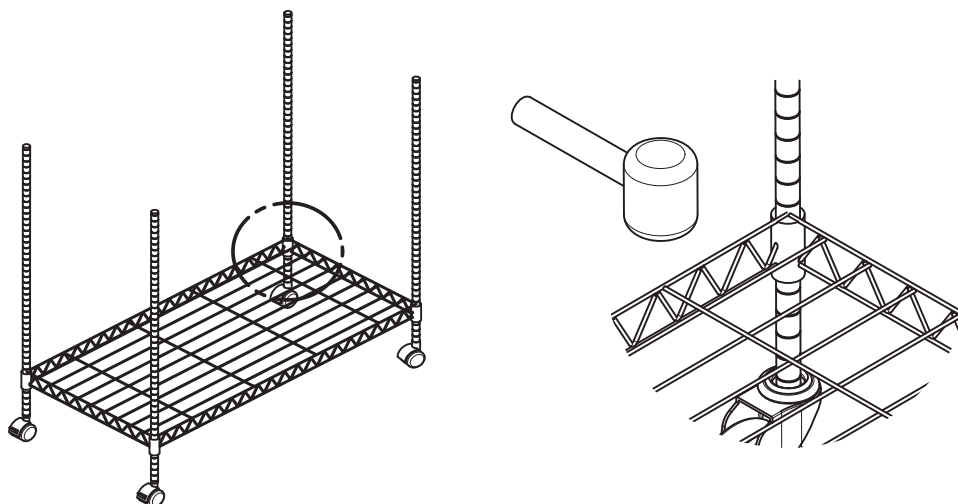

Note: NSF requires food service applications to keep the lowest shelf at least 6" above the floor.

Step 3

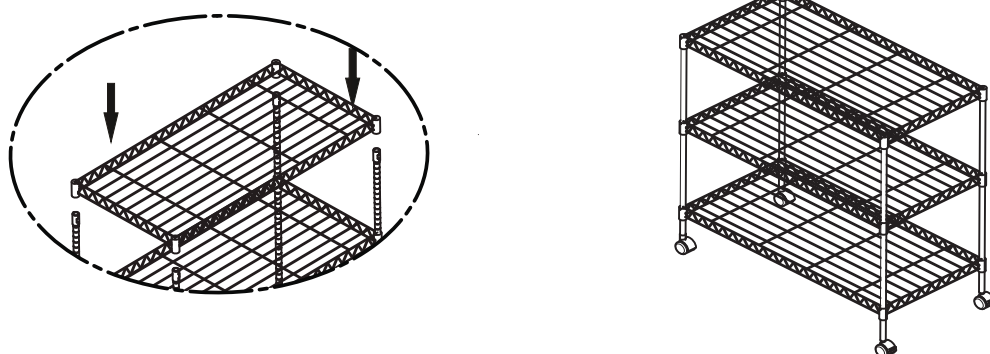

Lay the product carton flat on the ground. Place the shelf (#1) on its side and onto the carton to protect the finish. Insert all four posts (#2) into the shelf corner cylinders as shown in the below diagram.

**Step 4**

Place the unit into an upright position. Push down the shelf (#1) to make sure it sits securely onto the split sleeves (#3). Gently tap the shelf (#1) if necessary.

**Step 5**

Repeat the above steps to add the remaining shelves.

Read and follow all instructions before using this product

INSPECT this product before use. Do not use the product if you notice loose or damage parts.

ASSEMBLE and use the shelf on a flat, level, solid surface that is capable of supporting the weight of the cart and parts.

LOAD the shelf from the bottom up. Failure to load from the bottom up may cause the product to tip, which could cause personal injury and product damage.

DISPERSE the weight of items evenly that are placed on the product. Failure to disperse the weight of items evenly may cause personal injury or property damage.

DO NOT stand on the product. Standing on the product may cause you to fall and cause personal injury.

DO NOT alter this product in any manner. For example, do not weld extra parts, or attach electrical equipment to the product. Altering this product may cause personal injury or product damage.

DO NOT tow this product with power equipment. The shelf could tip, which may cause personal injury or product damage.

DO NOT allow children to play on or around the product. Failure to keep children from playing on or around the product may cause personal injury or product damage.

WEIGHT CAPACITY ON FEET LEVELERS: 150 LBS PER SHELF

WEIGHT CAPACITY ON CASTERS (EVENLY DISTRIBUTED): 60 LBS PER SHELF
