

Van Zuyverden Elephant Ears Black Coral - Set of 1 bulb

Elephant Ear bulbs are among the most eye catching of the bulbs available for purchase. Not only are they one of the largest bulbs, they are also very versatile in that they can grow with little sunlight to full shade. Beautiful on their own or planted as a back drop for your favorite blooms, they provide a bold tropical effect in nearly any garden. Once established, they require little to no attention. They are grown for their foliage, which is reminiscent of an elephant's ear.

- Glossy jet black leaves
- Stunning tropical leaves with blueish veins
- Likes the heat

About This Variety: Elephant Ear Colocasia ‘ Black Coral’ produces large clumps of glossy, black leaves with much texture.
