LOCTITE

EPOXY

IDEAL FOR DURABLE REPAIRS & GAP FILLING

Why Use Epoxy?

- Epoxies are two-part adhesives consisting of an epoxy resin and a hardener, combined to create a tremendously strong bond
- Wide range of dispensing options and technologies, ensuring the right product for your repair or project
- Ideal for medium repairs that require a strong and rigid permanent bond

Common Projects

Fix Splintered Wood

Fill Gaps

Repair Metal

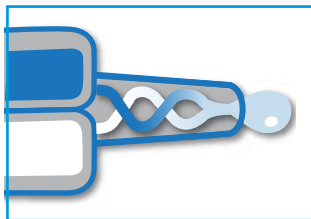

Anchor Bolts

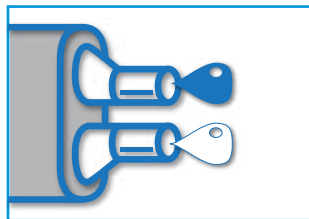

Repair Chipped Brick

Guide

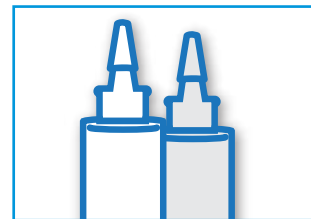

DISPENSERS

INSTANT MIX® - Self contained mixing mess-free results

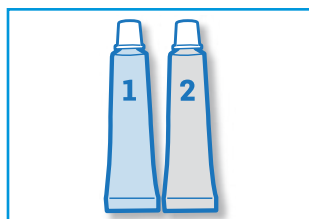

SYRINGE - Traditional two-part epoxy dispensers

BOTTLES - Larger size and high-strength formula for bigger, heavy-duty jobs

PUTTY - Rebuilds chipped and broken items

BONDING COMPOUND - Two-part epoxies available in tubes
