

SharkBite® Reclaimed Water PEX

DESCRIPTION

SharkBite® Reclaimed Water PEX is cross-linked polyethylene tubing for gray water, rainwater harvesting and reclaimed water systems. The tubing is colored purple meeting the color code requirements of national and state code bodies.

SharkBite® Reclaimed Water PEX is CTS-OD SDR9 manufactured and is available in ½"-1" sizes. The tubing is printed with a SharkBite® imprint pattern that provides a visual aid to determine if the tube has been inserted all the way into the SharkBite® push-fit fittings. **SharkBite® Reclaimed Water PEX** can be connected with SharkBite® push-fit fittings or Cash Acme® barbed fittings - providing a variety of connection options for a trouble free installation.

FEATURES AND BENEFITS

- Flexible:
Easy to install and service.....
- Quieter:
Minimizes noise caused by water hammer.....
- Resists corrosion and scale buildup:
Improves the performance of the plumbing system.....
- Fewer fittings required:
Reduces total installation cost.....
- Fewer joints:
Reduces the chances of call backs and helps reduce pressure loss in pipe.....
- Pressure test immediately:
No waiting for glue to dry or joints to cool.....

SPECIFICATION

Reclaimed water lines shall be plumbed using **SharkBite® Reclaimed Water PEX**. All joints shall be made using SharkBite® push-fit fittings or Cash Acme® bard fittings with clamps. Tubing and fittings shall be installed as outlined in the SharkBite® PEX installation manual.

SharkBite® Reclaimed Water PEX

SPECIFICATION DATA

Material:

Cross-link Polyethylene

Color:

Purple

Maximum Working Pressure:

160psi @ 73.4° F (23° C)

100psi @ 180° F (82° C)

80psi @ 200° F (93° C)
