1. Position the first ring under the ball on the top of the flagpole and tighten. Attach the top grommet of the flag to the clip located on the mounting ring.

2. Position and tighten the second ring in the necessary position on the flag pole to attach the bottom grommet of the flag to the clip. Attach the bottom grommet of the flag to the clip located on the mounting ring.

Note: Do not position the rings so that the flag is completely taut, this may prevent the rings from rotating freely around your pole.
