Owner Responsibilities

You must maintain your Toro Product by following the maintenance procedures described in the *Operator's Manual*. Such routine maintenance, whether performed by a dealer or by you, is at your expense. Parts scheduled for replacement as required maintenance ("Maintenance Parts"), are warranted for the period of time up to the scheduled replacement time for that part. Failure to perform required maintenance and adjustments can be grounds for disallowing a warranty claim.

- Components failing due to normal wear
- Any product or part which has been altered or misused or neglected or requires replacement or repair due to accidents or lack of proper maintenance
- Pickup and delivery charges
- Operational misuse, neglect, or accidents

 - Failure to drain the fuel system prior to any period of non-use over one month

 - Improper fuel (consult your Operator's Manual if in doubt)
 - Snowthrower auger/paddles striking an object
- Special operational conditions where starting may require additional attempts:
 - First time starts after extended period of non-use over three months or seasonal storage
 - Starting in -10° F (-23° C) or below temperatures
- Improper starting procedures - if you are having difficulty starting your unit, please check the Operator's Manual to ensure that you are using the correct starting procedures. This can save an unnecessary visit to an Authorized Toro Service Dealer.
