## **MAINTENANCE TIPS**

When the  icon appears at the upper right of the display, it's time to replace the "9V" battery that powers the instrument (although measurements will remain valid for several hours after the icon first appears). To replace the battery, follow the instructions on p. 6.

Remove the battery when storing the meter and when you do not expect to use it for an extended period of time (months rather than weeks).

Do not drop or disassemble the meter or immerse it in water.

---

## **WARRANTY INFORMATION**

General Tools & Instruments' (General's) DSM8930 Digital Sound Level Meter is warranted to the original purchaser to be free from defects in material and workmanship for a period of one year. Subject to certain restrictions, General will repair or replace this instrument if, after examination, the company determines it to be defective in material or workmanship.

This warranty does not apply to damages that General determines to be from an attempted repair by non-authorized personnel or misuse, alterations, normal wear and tear, or accidental damage. The defective unit must be returned to General Tools & Instruments or to a General-authorized service center, freight prepaid and insured.

Acceptance of the exclusive repair and replacement remedies described herein is a condition of the contract for purchase of this product. In no event shall General be liable for any incidental, special, consequential or punitive damages, or for

any cost, attorneys' fees, expenses, or losses alleged to be a consequence of damage due to failure of, or defect in any product including, but not limited to, any claims for loss of profits.
