OIL-BASED Product & Color Guide

WOOD FINISHING PRODUCTS

FIND THE RIGHT PRODUCT AND COLOR
FOR YOUR NEXT PROJECT

PREP, STAIN & PROTECT

Pre-Stain Wood Conditioner

- Prepares Wood Surfaces for Oil-Based Staining
- Helps Promote Even Staining
- Seals Soft Wood for a Uniform Color

Helps Prevent Streaks & Blotches

Wood rarely absorbs stain evenly. To minimize this difference and to reduce the blotchiness that can occur when staining, brush on a coat of BEHR Oil-Based Pre-Stain Wood Conditioner after removing the sanding dust, but before you apply your stain.

Three Easy Steps to a Beautiful Finish

1 Prep

Pre-Stain Wood Conditioner properly prepares interior bare or stripped wood surfaces for staining.

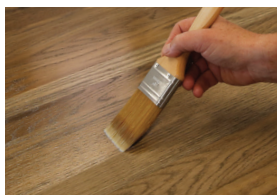

2 Stain

Wood Stains create vibrant colors that enhance the natural beauty of wood.

3 Protect

Clear Finishes provide a hard, durable topcoat that resists abrasion, marring & scratching on interior and exterior surfaces.

CLEAR FINISHES

Fast-Drying Polyurethane

- Durable Clear Protective Finish
- Recoat in 2 Hours
- Resists Stains & Scratches
- For Interior Wood Surfaces

Spar Urethane

- Durable Clear Protective Finish
- Fortified with UV Inhibitors
- For Exterior & Interior Wood Surfaces

Choose the Right Sheen

When choosing a sheen, consider all aspects of the project: look, function, and durability.

*Matte finish not available in Spar Urethane.

WOOD STAIN

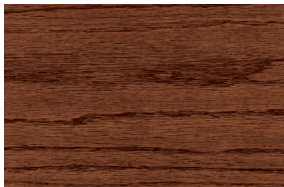

- For Horizontal & Vertical Surfaces
- Reduces Drips & Runs
- One-Coat Coverage
