

# USE INSTRUCTIONS

Please read the instructions carefully before use.

# Installation Method For Hanging On The Wall

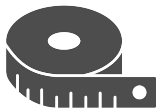

## ► Tools needed

Power Drill x 1

Screwdriver x 1

Tape Measure x 1

Pencil x 1

expansion anchor x 2

expansion screw x 2

Make sure the wall can support the weight of the mirror. Because the product is heavy, it is NOT recommended to hang it on the door.

Below is a table of the weight of the mirror

MIRROR SIZE /inch	WEIGHT / lbs
65*22	29.54
71*24	35.49
71*28	40.12
71*32	44.75

## Installation Method

1. Use a tape measure to measure the distance between the two hooks on the back of the mirror and mark the same horizontal distance on the wall with a pencil
2. Use a power drill to drill holes in the marked spots on the wall, and then insert the expansion anchors into the wall.
3. Use a power drill or screwdriver to rotate the expansion screws into the expansion anchors.
4. Hang the mirror on the drilled expansion screws. Note: You do NOT need to remove the U-shape stand on the back of the mirror before hanging.

## How To Clean

1.Spray some water containing detergent on the surface of the mirror, we recommend vinegar-water solution or conventional glass cleaner.

2.Wait a few seconds for the water to soften the stain, then wipe the stain with a clean cloth. For better cleaning results, we recommend microfiber cleaning cloths or newspaper.
