

INSTALLATION INSTRUCTIONS

Parts Included

- 1 Strainer • 1 Basket • 1 Rubber Gasket • 1 Drain Body • 1 Brass Nut • 1 Flange Tailpiece •

Tools Needed

- Silicone Sealant • Wrench •

1. Remove strainer and basket from drain body.
2. Unscrew brass nut and flange tailpiece from basket.
3. Apply silicone sealant under the rim of basket.
4. Place basket in sink opening and press down firmly.
5. From beneath sink, place rubber gasket and drain body over basket and push to top firmly.
6. Screw brass nut onto basket, and tighten until secure.
7. Screw flange tailpiece back on basket bottom. You will need it when you connect your plumbing.
