

CARE GUIDE

COLORED STAINLESS STEEL

RUVATI®

This comprehensive care guide for Nano PVD colored stainless steel sinks is designed to help you maintain its beauty and durability while ensuring a pristine appearance for years to come.

General Care:

- Clean the sink daily using a sponge or a soft cloth with warm water and mild chloride free dish soap.
- Thoroughly rinse the sink. Do not leave food, water or cleaning products sitting on the sink surface.
- Gently dry the sink with a soft microfiber cloth after use.

Surface Protection:

- Polish the sink as needed and after cleaning with a microfiber cloth and mineral oil or unscented baby oil.

Water Spots & Limescale:

- Allow a 50/50 water-vinegar solution to sit on the sink surface for up to 30 minutes.
- Use a sponge or a soft cloth and scrub in small, circular motions.
- Rinse with warm water and dry the sink after cleaning with a soft microfiber cloth.

Scratches:

- Cannot be repaired, however, can be prevented.
- Always have the bottom rinse grid in the sink when it is in use.
- Wash small utensils or small items that may fall through the rinse grid right away to prevent accidental scratches.

✓ DO's

Always have the rinse grid in the sink when it is in use.

Always remove sponges or cleaning tools from the sink when it is not in use.

Always rinse and dry the sink or tub after cleaning and use.

✗ DON'Ts

Never use cleaning products containing bleach, chlorine or ammonia.

Never use abrasive cleaning products such as steel wool or 3M Scotch Brite scrub pads.

Never leave water, food, soap, personal care items/makeup, hair dye or cleaning products sitting in the bowl for extended periods of time.

Recommended Products

- 50/50 Water-vinegar solution
- Liquid dish soap
- Mineral oil, unscented baby oil
- Sponge, microfiber cloth
