

## HOW TO ACTIVATE

### FOR FIREPLACES

**STEP 1:**  
Build and light fire.

**STEP 2:**  
After 30 minutes, add Creosote Buster® firelog to burning fire. Close fireplace screen; open hearth door(s).

**STEP 3:**  
Active ingredients in Creosote Buster® firelog begin attacking the creosote. Keep hearth door(s) open until log is burned completely (*you may need to add additional wood*).

### FOR WOOD STOVES

**STEP 1:**  
Build and light fire.

**STEP 2:**  
After 30 minutes, add Creosote Buster® firelog to burning fire. Close door and leave air vents open.

**STEP 3:**  
Active ingredients in Creosote Buster® firelog begin attacking the creosote. Keep stove door(s) closed until Creosote Buster® firelog is burned completely.

## WHY USE?

Creosote build up can cause a dangerous and potentially life threatening house fire.

Help to reduce dangerous creosote by burning Creosote Buster® firelog once a season.
