

LEGENDS FURNITURE

How To: Clean Your Adjustable Bedframe

We suggest cleaning the furniture in stages, starting with a mild technique that poses no risk to the integrity of the finish, then graduating to a stronger scrub only if the gentler one fails.

Our Suggestion: Warm Water & Dish soap

We always suggest the humblest of household cleaners: liquid dish soap.

- Add a drop of liquid dish soap to a warm water-moistened cotton ball.
- Next, wipe the cotton ball on an inconspicuous part of the Adjustable Bedframe, such as the top of the frame.

Mix Warm water and dish soap in a bucket with a Soft, lint-free cloth. Before applying, be sure to wring out the cloth thoroughly so it is only slightly damp to the touch. Once damp, use the cloth to wipe down the entire Bed-frame. When finished, be sure to dry thoroughly.

Note: Always dust bed-frame with soft, lint-free cloths. Avoid feather dusters, because they aren't as effective and sometimes have sharp quills that may scratch the surface.
