3. INSTALLATION GUIDELINES

3.1 Location Requirements

- Choose a clean, dry and ventilated area.
- Maintain clearance around the air inlet/outlet for proper airflow.
- Avoid locations with excessive dust, heat, vibration or moisture.
- Ensure nearby electrical outlets are properly rated and grounded.

3.2 Setup

- Follow installation instructions according to AC type (window-mounted, wall-mounted, portable).
- Secure all mounting brackets or window panels firmly.
- Do not block the exhaust hose or drainage outlet (portable models).

3.3 Power Connection

- Plug the unit directly into a properly grounded outlet.
- Do not use extension cords or power strips.
- Make sure the plug is fully inserted and secure.

4. OPERATING INSTRUCTIONS

4.1 Powering On/Off

Press the **Power** button on the control panel or remote to start or stop operation.

4.2 Mode Selection

Common modes include: - **Cool Mode:** Lowers room temperature. - **Fan Mode:** Circulates air without cooling. - **Dry Mode:** Reduces humidity levels. - **Auto Mode:** Automatically adjusts settings based on room conditions.

4.3 Airflow Direction

- Adjust louvers to direct air where needed.
- Do not manually force louvers; use directional controls if available.

4.4 Timer & Sleep Settings

- Use the timer to schedule automatic ON/OFF functions.
- Sleep mode may gradually adjust temperature for comfort and energy efficiency.

4.5 Remote Control

- Aim the remote toward the sensor window.
- Replace batteries if signal becomes weak.

5. MAINTENANCE & CARE

5.1 Cleaning the Exterior

- Wipe with a soft, damp cloth.
- Do not use abrasive cleaners, chemicals or solvents.
- Ensure the unit is unplugged before cleaning.

5.2 Cleaning or Replacing the Air Filter

- Remove the air filter from the compartment.
- Wash with mild soap and warm water; dry fully before reinstalling.
- Clean regularly to maintain optimal performance.

5.3 Drainage Maintenance

For units with condensation systems: - Check the drainage outlet periodically. - Empty condensate tanks (portable models) when full. - Ensure drainage hoses are not kinked or blocked.

5.4 Seasonal Storage

- Turn off the unit and unplug it.
- Clean and dry the interior and exterior surfaces.
- Store the unit in a cool, dry place away from direct sunlight.
- Cover the unit to protect it from dust.
