

Use and Care Manual

Assembly: Begin by inflating the pool basketball hoop using the large bore valves provided. Ensure all valves are securely closed after inflation.

Placement: Place the assembled hoop float securely in your swimming pool, ensuring it is positioned in a safe and stable manner. Once the hoop is securely in place, grab the included basketball and start the game.

Care and Maintenance: After each use, thoroughly rinse the hoop and basketball with clean water to remove any chlorine or pool chemicals. Allow them to air dry completely before storing.

Inspect Regularly: Periodically inspect the hoop for any signs of wear or damage. If any damage is found, discontinue use immediately and repair or replace the hoop as needed.

Storage: When not in use, deflate the hoop and basketball for compact storage. Store them in a cool, dry place away from direct sunlight and extreme temperatures.

Safety Precautions: Always supervise children during play to prevent accidents. Avoid rough play or hanging on the hoop excessively to prevent damage or injury.
