Elegant form and
intelligent function

A bold evolution in residential energy

For more than a century, Square D™ by Schneider Electric has been a leader in residential, commercial, and industrial electrical equipment. Our products are found in 40 percent of U.S. homes, reliably powering and protecting what matters most. For generations, electrical contractors, builders, and DIY homeowners have trusted Square D for quality, innovation, reliability, and safety in electrical equipment.

Now, we're writing the next chapter in stylish, connected living: residential wiring devices designed for enhanced aesthetics, durability, and connectivity — setting a new standard for what consumers expect out of their electrical equipment.

About Schneider

Time-tested reliability, with a twist

Most light switches, outlets, and wall plates look the same as they did in the 1970s. Of course, anything that lasts that long surely must be doing something right. And yet, with Square D innovation, our new wiring devices retain all the classic functionality while raising the bar on aesthetics, durability, and connectivity.

Light switch with XD Series cover plate

X Series light switch

Design is at the heart of our new wiring devices: X and XD Series. Both are designed for an elegant minimalist look, and this simplicity extends beyond form, into function. We've consolidated all the new features into fewer products, so you get every benefit in any device you choose. It's all a variation on the same theme: flush-mounted, easy to install, and connected options.

Square D™ X Series: setting a new standard

Flexible and feature-rich, X Series sets the new benchmark for how today's wiring devices should look and feel. With X Series' interchangeable, flush facing covers, you can adapt to any interior décor, while connectivity options help you save energy and live comfortably. The bottom line: X Series upgrades the conventional without reinventing the wheel.

Richer features for consumers and electricians alike

Whether you plan to install these devices or just use them every day, there's a lot to like about X and XD Series.

X Series switch module

X Series wall and rocker plate

XD Series light switch cover paddle

Change the look, not the device

XD Series cover plates simply snap on to a unique back plate, with no new wiring needed when installing over Square D modules.

Durable matte finishes

New advances in materials science enable wiring devices that avoid breakage during installation, while standing up to the test of time. These finishes also bring beauty with minimalist matte elegance.

RoHS certified
Breathe easy with safe, non-hazardous materials
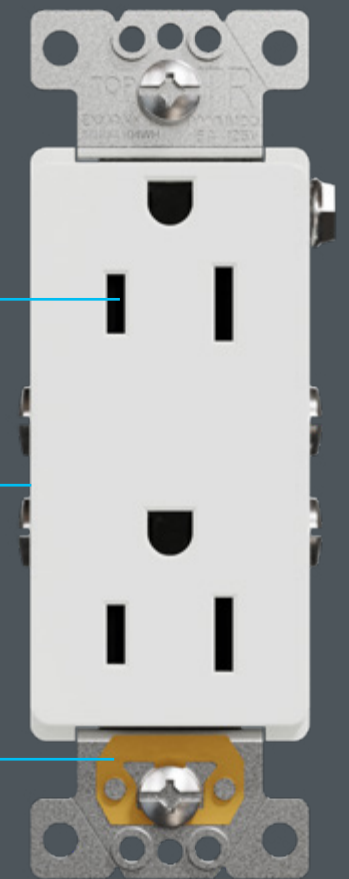

Black tamper-resistant shutters
Put safety at the forefront without making it obvious, with easy-sliding shutters

Side-mount pressure plates
Speed wiring time with better accessibility

Self-grounding clip
Skip the separate ground screw

Ground wire hole
Install faster utilizing this innovation for quickly wrapping the ground wire to the ground screw

Bigger cutout for wire snips
Enjoy the ease of an easy-access cutout space for speedy wire snips

Wire push-in
Connect your wire quickly with push-in option and avoid the need to wrap

Same device, two distinct looks

Light switch with XD Series cover paddle

Light switch with X Series cover plate and rocker

X Series humidity/motion sensor and fan control

USB receptacle with XD Series cover plate

One device, three functions

Save space and time by combining your fan switch, humidity sensor, and occupancy sensor.

Power up, fast

Charge two devices at once faster than average receptacles with high-amperage USB charging.

Wi-Fi and Z-Wave connectivity

Intelligent connectivity makes these wiring devices remotely manageable via voice command or app control. With smart wiring devices, you can create custom lighting scenes, monitor energy use down to the plug level, and much more.

About
Schneider

Square D X Series

Setting the new standard

As the best value in wiring devices, X Series is surprisingly feature-rich, including easy installation, refreshed modern design, and smart home compatibility.

X Series normalizes an array of new features, such as flush facing, easy installations, and connectivity, establishing a new benchmark for residential wiring devices.

Key benefits

- Upgraded aesthetics with flush facing, matte finishes, and multiple color choices
- Simplified wiring with large cutouts for wire snips, a self-grounding clip, and side-mount pressure plates
- Connected options for Wi-Fi and Z-Wave, enabling intelligent home energy management

X Series light switch

X Series 2-gang light switch

X Series slide dimmer switch

X Series humidity/motion sensor and fan control

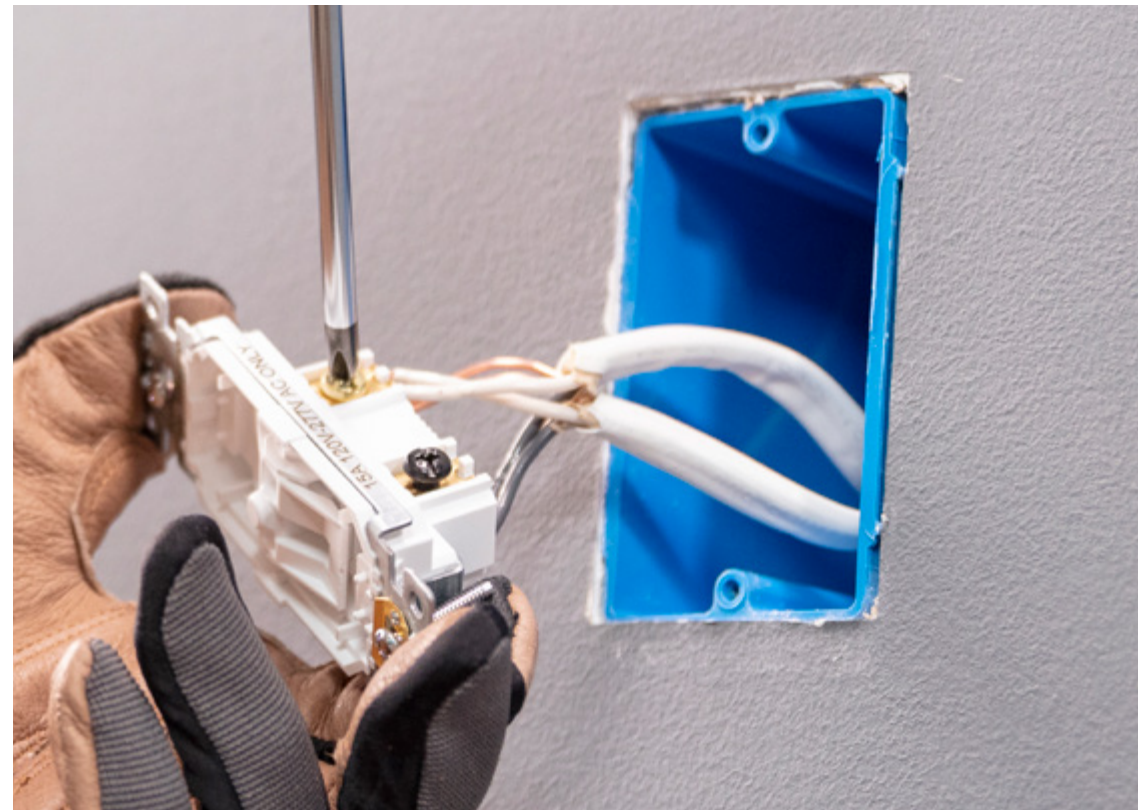

X Series 15 A receptacle

X Series GFCI receptacle

Expect more from your wiring devices

From dimmers to sensors and beyond, X Series changes expectations of what an everyday wiring device should be able to do.

Switches

- Swap and upgrade plates without the need to remove the switch from the wall
- Supports single pole, three-way, and four-way switches

Switch module   Rocker plate

Dimmers

- Eliminates near-off flickering on LED lights
- Powers dimmable compact fluorescent and LED lamps up to 150W
- Accommodates incandescent and halogen bulbs up to 600W
- California Title 24 compliant

Dual-LD dimmer   Slide dimmer

Fan control

- Slide control provides clear user feedback for low, medium, or high fan speed
- Preserve peace and quiet with low 2.5 amp motor control
- Install quickly with clearly identified rear wires and other quick connection features

3-speed slide

Receptacles

- Elevate safety with camouflaged black shutters
- Speed up wiring with "no-wrapping" screw installation and self-grounding clip
- Enhance kitchen and bathroom safety with GFCI receptacles that self-test every 3 seconds

Decorator receptacle

GFCI receptacle

Standard duplex receptacle

Standard single receptacle

Specialty receptacles

- Charge two devices at once with USB receptacles that deliver up to 2.4A per port
- Navigate safely in the dark with sensor-enabled LED nightlight receptacles

USB A/A receptacle

USB A/C receptacle

Guide light receptacle

30 and 50 Amp receptacle available

Sensors

- Detect both occupancy and vacancy in one device, with 180° views and up to 800 square feet of coverage
- Adjust timing for fans and lights in increments of 10, 20, or 30 minutes
- Set relative humidity levels between 45 – 80%
- Enable manual control at any time via push buttons

Motion sensor

Humidity/motion sensor and fan control

Decorator Ethernet™ insert

Decorator coaxial connector

Decorator combo connector

Decorator brush strap
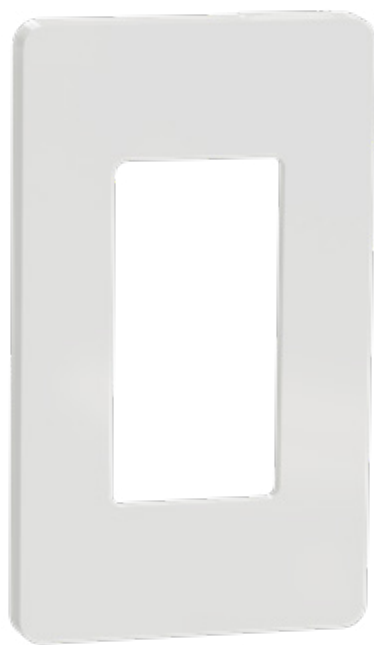

Data and communications

- Support traditional telephone, cable TV, and data networking with cat 6 insert
- In-wall HDMI cable installs for wall-mounted TVs with brush strap

About
Schneider

Square D XD Series

Minimalist modern looks, simple installation

Your walls are smooth. Your trim is smooth. Finally, your cover plates can be smooth, too. XD Series features fully flush, screwless cover plates that dress up any room.

Even better, the XD Series mounts on the same feature-rich switches and receptacles as X Series, yet offers a more sophisticated cover plate option. That means it's easy to mix, match, and upgrade from X to XD cover plates, without rewiring.
