

# PORTABLE TANKLESS GAS WATER HEATER

USE & CARE MANUAL

AY132 SERIES

OPTIONAL COLOUR ▶ **WHITE** **BLACK** **GREY**

**⚠ WARNING**

**FIRE OR EXPLOSION HAZARD**

IF YOU SMELL GAS:

1. DO NOT ATTEMPT TO LIGHT APPLIANCE AND MAKE SURE APPLIANCE IS IN THE OFF POSITION.
2. EXTINGUISH ANY NEARBY FLAMES.
3. SHUT OFF CYLINDER FUEL SUPPLY VALVE IF SO EQUIPPED, OR IF EQUIPMENT WITH A DISPOSABLE FUEL CYLINDER, DISCONNECT THE CYLINDER.
4. LEAVE THE AREA IMMEDIATELY.
5. ALLOW GAS TO DISSIPATE FOR 5 MINUTES.
6. IF GAS SMELL HAS DISSIPATED FROM THE AREA, THE APPLIANCE, AND FUEL SUPPLY, FOLLOW STEPS 1-5 AND HAVE APPLIANCES SERVICED.

FAILURE TO FOLLOW THESE INSTRUCTIONS COULD RESULT IN FIRE OR EXPLOSION, WHICH COULD CAUSE PROPERTY DAMAGE, PERSONAL INJURY, OR DEATH.

**⚠ WARNING**

IMPROPER INSTALLATION, USE, ADJUSTMENT, ALTERATION, SERVICE, OR MAINTENANCE CAN CAUSE INJURY OR PROPERTY DAMAGE. REFER TO THIS MANUAL. FOR ASSISTANCE OR ADDITIONAL INFORMATION, CONSULT A QUALIFIED INSTALLER, SERVICE AGENCY, OR GAS SUPPLIER.

**⚠ WARNING**

KEEP THIS APPLIANCE AWAY FROM ALL COMBUSTIBLE MATERIAL. MINIMUM CLEARANCES REAR AT 20 INCH, TWO SIDES AT 40 INCH, TOP AT 40 INCH. TURN GAS OFF AT CYLINDER VALVE AFTER USE. DISCONNECT AND REMOVE CYLINDER BEFORE STORING THIS APPLIANCE INDOORS.  
\* PLEASE RETAIN THE INSTRUCTION MANUAL FOR FUTURE REFERENCE.

**⚠ WARNING**

DO NOT STORE OR USE GASOLINE OR OTHER FLAMMABLE VAPORS AND LIQUIDS IN THE VICINITY OF THIS OR ANY OTHER APPLIANCE.

**⚠ DANGER**

Water temperature over 125°F (52°C) can cause severe burns instantly or death from scalds.

Children, disabled and elderly are at highest risk of being scalded.

See instruction manual before setting temperature at water heater.

Feel water before bathing or showering.

**⚠ DANGER**

*CARBON MONOXIDE HAZARD*

**This appliance can produce carbon monoxide which has no odor.**

**Using it in an enclosed space can kill you.**

**Never use this appliance in an enclosed space such as a camper, tent, car or home.**

## You're All Set!

Thanks for purchasing your new Camplux 5L outdoor portable tankless water heater. This convenient, safe and one of kind product will open the doors to enjoying out outdoor life!

We highly suggest you take the time to read through all of the safety and installation procedures in this manual, before attempting to install your new outdoor portable water heater.

Always remember we're here for you via our online helpdesk located at [www.camplux.com](http://www.camplux.com), live chat and toll free at 1(844)538-7475!

### Read this manual

Inside you will find many helpful hints on how to use and maintain your water heater properly. A little preventive care on your part can save you time and money over the life of your water heater.

You'll find many answers to common problems in the Troubleshooting Guide. If you review the chart of Troubleshooting Tips first you may not need to call for service.

### Read the safety information

To Ensure your safety and the safety of others, we have included important safety warnings throughout this manual.

All safety messages will follow the safety alert symbol and the words: "CAUTION", "DANGER" "WARNING" or "NOTICE".

These words mean:

**CAUTION** - A potentially hazardous situation that may result in minor or moderate injury.

**DANGER** - An imminently hazardous situation that will result in death or serious injury.

**WARNING** - A potentially hazardous situation that could result in death or serious injury and/or damage to property.

**NOTICE** - Attention is called to observe a specified procedure or maintain a specific condition.

## Important Safety Information Read All Instructions Before Using

Be sure to read and understand the entire Use and Care Manual before attempting to install or operate this water heater. It may save you time and money. Pay particular attention to the Safety Instructions. Failure to follow these warnings could result in serious bodily injury or death. Should you have problems understanding the instructions in this manual, or have any questions, STOP, and get help from a qualified service technician, or the local gas utility.

** DANGER!**

**Properly install water heater**

Failure to properly install the water heater outdoors as outlined in the Installation Instructions in this manual can result in unsafe operation of the water heater. To avoid the risk of fire, explosion, or asphyxiation from carbon monoxide, never operate this water heater unless it is installed properly and has an adequate air supply for proper operation. Be sure to inspect the flue terminal for proper installation at initial start-up; and at least annually thereafter. Refer to the Care and Cleaning section of this manual for more information regarding flue terminal inspection.

**⚠ WARNING**

Gasoline, as well as other flammable materials and liquids (adhesives, solvents, paint thinners etc.), and the vapors they produce are extremely dangerous. DO NOT handle, use or store gasoline or other flammable or combustible materials any where near or in the vicinity of a water heater or any other appliance. Be sure to read and follow the labels on the water heater, as well as the warnings printed in this manual. Failure to do so can result in property damage, bodily injury or death.

**⚠ DANGER**

**⚠ Vapors from flammable liquids will explode and catch fire causing death or severe burns.**

Do not use or store flammable products such as gasoline, solvents or adhesives in the same room or area near the water heater.

Keep flammable products:

1. Far away from heater
2. In approved containers
3. **Tightly closed**
4. Out of children's reach

Water heater has a main burner flame. The main burner flame

1. Can come on at any time and any where
2. Will ignite flammable vapors

Vapors:

1. Cannot be seen
2. Are heavier than air
3. Go a long way on the floor
4. Can be carried from other rooms to the main burner flame by air currents

Installation:  
Do not install water heater where flammable products will be stored or used unless the main burner flame is at least 18" above the floor. This will reduce, but not eliminate, the risk of vapors being ignited by the main burner flame.

Read and follow water heater warnings and instructions. If owners manual is missing, contact the retailer or manufacturer.

**⚠ DANGER!**

**Liquefied petroleum gas models**

Propane gas have an odorant added to aid in detecting a gas leak. Some people may not physically be able to smell or recognize this odorant. If you are unsure or unfamiliar with the smell of propane gas, ask the gas supplier. Other conditions, such as "odorant fade", which causes the odorant to diminish in intensity, can also

hide or camouflage a gas leak. Always check with commercial leak detector or soapy water.

- Gas detectors are recommended in propane gas applications and their installation should be in accordance with the detector manufacturer's recommendations and/or local laws, rules, regulations or customs.
- To avoid possible equipment damage, personal injury or fire, do not connect the water heater to a fuel type not in accordance with the portable tankless water heater data plate. These portable tankless water heaters are only for propane gas, not certified for any other fuel type.
- Propane appliances should not be installed in an unventilated place (for example, in a basement) if such installation is prohibited by federal, state and/or local laws, rules, regulations or customs.
- Propane gas must be used with great caution. It is heavier than air and will collect first in lower areas making it hard to detect at nose level.
- Before attempting to light the water heater, make sure to look and smell for gas leaks. Use a soapy solution to check all gas fittings and connections. Bubbling at a connection indicates a leak that must be corrected. When smelling to detect a gas leak, be sure to sniff near the floor also.
- It is recommended that more than one method, such as soapy solution, gas detectors, etc., be used to detect leaks in gas applications.

**Notice: If a gas leak is present or suspected:**

- **DO NOT attempt to find the cause yourself.**
- **DO NOT try to light the water heater.**
- **DO NOT touch any electrical switch.**

 **WARNING**

**California proposition 65**

This appliance contains chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm. If the information in these instructions is not followed exactly, a fire or explosion may result causing property damage, personal injury or death.
