

12kW¹ Standby Generator

Briggs & Stratton® The Smart Choice

Reliable back-up power for added peace of mind.
Guard against losses due to power outages with
a Briggs & Stratton Standby Generator.

New Upgraded Control System

- New AVR optimizes generator performance with tighter voltage control
- LCD display that displays multi-line text and graphics
- Default exercise cycle setting of 16 seconds
- Low speed exercise available to save fuel and reduce noise
- Monitors cold temperatures to avoid moisture buildup in engine oil
- Cleaner power with improved frequency regulation
- More efficient alternator capable of starting most 5-ton air conditioners

Designed for Easy Installation & Maintenance

- Approved for installation as close as 18" to a building²
- Removable roof and side panels provide better service access to the engine and alternator
- Controller, battery charger, and AVR can be replaced separately
- External on/off switch located on back of enclosure

Commercial Vanguard® Engine

- Easy conversion between natural gas (NG) and liquid propane vapor (LPV) during installation
- Advanced debris management keeping engine clean and cool for enhanced durability and performance
- Dynamically balanced crankshaft minimizes engine noise and vibration

Charging System

- Independent battery charger
- Optimizes battery life with a 3-stage battery charger (bulk, absorption, and float stage)

Corrosion Resistant Enclosure & Base

- Made with automotive grade galvalume steel to resist rust
- Powder-coated paint for years of protection against chips and abrasions
- Certified to withstand hurricane-force winds up to 175mph⁵

Briggs & Stratton® Full Synthetic Generator Oil

- Shields the engine from low temperature sludge buildup and high temperature deposits
- Reduces engine wear, scoring and abrasion

Compatible with Symphony® II Power Management System

- Customizable to your home's needs
- Automatically balances the power of your home's electrical load including high wattage items like air conditioning units and electric ovens
- Offers whole house power with a more affordable home generator
- Compatible transfer switches and modules sold separately

¹ This generator is certified in accordance with UL (Underwriters Laboratories) 2200 (stationary engine generator assemblies) and CSA (Canadian Standards Association) standard C22.2 No. 100-14 (motors and generators).

² The installation manual contains specific instructions related to generator placement in addition to NFPA 37, including the requirement that carbon monoxide detectors be installed and maintained in your home.

³ Single phase units are rated at 1.0 power factor and three phase units are rated at 0.8 power factor.

⁴ See operator's manual or BRIGGSandSTRATTON.com for complete warranty details.

⁵ Up to 175 mph, when installed in accordance with the installation manual.

Warranty³

Unlike some other standby generator manufacturers, our warranty covers **parts, labor AND travel for the full length of the warranty** with no start-up costs!

¹ This generator is certified in accordance with UL (Underwriters Laboratories) 2200 (stationary engine generator assemblies) and CSA (Canadian Standards Association) standard C22.2 No. 100-14 (motors and generators).

² Fuel consumption rates are estimated based on normal operating conditions at ½ load. Generator operation may be greatly affected by elevation and the cycling operation of multiple electrical appliances – fuel flow rates may vary depending on these factors.

³ See operator's manual or BRIGGSandSTRATTON.com for complete warranty details.

⁴ Lowest no-load measurement per ISO 3744. Sound level measurement at other locations around generator may be different depending upon installation configuration.
