| Sizes: | 8 oz. & 16 oz. |
| Max. V.O.C. | 350 g/l |
| Max. Vapor Pressure | 51 mm Hg @ 20° C |

Surface Preparation

Make sure the surface is free of dust, dirt, grime, and other contamination.

Application

Choose the Restor-A-Finish color that best matches the finish of your wood. Apply with a small pad of cloth, or (for severe scratches and white rings) apply with super fine (0000) steel wool. For carved surfaces, you may use a small paint brush or soft toothbrush. **Do not pour directly on finish. Always wipe dry.** When using steel wool,

always rub with the wood grain. Finishes vary in hardness, so test pressure to be used with steel wool on an inconspicuous spot. Cover a small area at a time and wipe dry. For best results, wait at least 30 minutes and then apply a coat of Feed-N-Wax to protect & maintain the newly restored finish.

Thinning

Apply at can consistency.

Precautions

Always test in an inconspicuous area to check results. Do not apply polyurethane over Restor-A-Finish. Do not apply Restor-A-Finish to imitation wood finishes or use as a stain. Be careful to protect fabric, carpets, or linoleum when applying Restor-A-Finish, as it may leave a permanent stain. If spilling does occur, immediately scrub area with soap and water or a stain remover and wipe dry. Be sure to apply to a small area at a time when using Restor-A-Finish. Always wipe dry. For additional safety information, consult the Safety Data Sheet for this product.

CAUTIONS: DANGER! FLAMMABLE.

HARMFUL OR FATAL IF SWALLOWED. EYE IRRITANT. VAPOR HARMFUL. Contains petroleum distillates. Keep away from heat, sparks, and flame. Before using this product in the workplace, read the Material Safety Data Sheet (MSDS) available online. This product is intended for occasional use only. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage.
