E	M4*23mm Screw	16

The goods

Step 1

Use packaging carton/carpet as a working surface. Grab your phillips head screw driver and attach the legs to the table top. This can be considered your leg workout for day... (dad joke - couldn't help myself).

Step 2

Yup, you're almost done. How about ordering some pizza to reward yourself? The table top is basically the same size as a large pizza, just saying... you deserve it.

Step 3: We don't like wrinkles either!

The good news is, over time the wrinkles will smooth out, but if you're looking for quick results we would suggest the following:

Option 1: Use a steamer to remove wrinkles to make your basket look pristine.

OR

Option 2: Don't have a steamer? Step aside Iron Man.

This basket is 100% polyester, making it safe to iron.

Using your ironing board, only iron the sides of the basket.

DO NOT iron the bottom of the basket because it is made of medium-density fibreboard materials.

We hope this has not inconvenienced you & that you are happy with your table.

Step 4

Flip it on over.

Tip from one friend to another:

When inserting the basket, we suggest tilting the basket on an angle and to keep the basket rail above little knobs for easy installation. Now time to chill!

We really don't want you to go through the hassle of re-packaging your item
and sending it back, because let's be honest...nobody has time for that.

Safety first, fun later.

We want your side table to last as long as possible, so we recommend that you tighten the screws 2 weeks after assembly and for added safety check the tightness of all screw every 2 months.
