

# EchoFlame™

## Use and Care Manual

**Insert the metal cup into the opening located at the top of the fireplace so that the lip of the cup rests nicely just inside the indent.**

**Carefully remove the lid from EchoFlame™ gel fuel can and insert into the metal cup. *(Note: Remove label from can before inserting.)***

**Use a long match or lighter to ignite the EchoFlame™ gel fuel and enjoy your very own accent fireplace.**

**Includes snuffer to easily extinguish flames.**

**Place snuffer over the top of the can to extinguish flame.**

- Keep out of reach of children & pets.
- Open flame - Heat producing appliance; Operate with caution & under adult supervision.
- Use only in well ventilated areas.
- Do not move while lit.
- Allow to cool for 15 minutes before touching.
