HERE'S HOW TO TAKE CARE OF ME

Raven® ZZ Zamioculcas 'Dowon'
PP30,035 Propagation Prohibited

LIGHT

This plant can get by with very little natural light. Feel free to place it anywhere from on a nightstand to in a bathroom.

WATER

This plant can go several weeks without water. Only water it when the soil dries out completely and be careful not to over-water.

FOOD

Feed me once or twice a year during Spring and Summer with a fertilizer formulated for houseplants.

FEATURES

A rare variety whose new growth starts out lime green and matures into a deep purple-black.

GROWING TIPS

Raven® ZZ Zamioculcas 'Dowon' would rather be too dry than too wet. If you're unsure whether it needs water, it's usually best to let it dry out a bit more.

GIVE ME FRIENDS

(I play well with)

Snake Plants, Chinese Evergreen, & Ficus varieties
