

Replacement Part List for 10x20 Ft Carport

Replacement Canopy Cover

This list details the available replacement parts for the 10x20 Ft Carport Replacement Canopy Cover. The cover is designed for garage - top tent shelters, comes with 36 ball bungee cords, and is heavy - duty, waterproof, UV - resistant, and tear - resistant. Note that only the cover components are included; no frame parts are available.

I. Canopy Cover Components

- . **Main Canopy Cover**
 - **Description:** The large white fabric cover measuring 10x20 feet. Made of heavy - duty waterproof, UV - and tear - resistant material, it serves as the primary protection for the carport.
 - **Part Number:** CC - 10x20 - 01
- . **Corner Reinforcements**
 - **Description:** Reinforced patches at the corners of the canopy cover. They enhance the cover's durability, especially in high - stress areas when securing the cover with bungee cords.
 - **Part Number:** CC - CR - 01

II. Attachment Hardware

. **Ball Bungee Cords**

- **Description:** Elastic cords with ball - shaped ends. There are 36 in a full set. They are used to secure the canopy cover to the carport frame.
- **Part Number:** BC - 36 - 01

. **Plastic Hooks**

- **Description:** Hooks made of durable plastic. They are used in combination with the bungee cords to attach the cover to the carport frame, ensuring a secure fit.
- **Part Number:** PH - 01

III. Sealants and Repairs

. **Waterproof Sealant**

- **Description:** A sealant that can be applied to seams or small tears in the canopy cover to maintain its waterproof integrity.
- **Part Number:** WS - 01

. **Patch Kit**

- **Description:** Contains fabric patches and adhesive suitable for repairing small tears or holes in the canopy cover, extending its lifespan.

- **Part Number:** PK - 01
