

CARING FOR YOUR BURPEE HERBS & VEGGIE PROGRAM

1. UNBOX & POSITION

Gently remove your plant from the box immediately to allow it to breathe.

Place it in a location with bright, indirect light (e.g., a sunny windowsill), avoiding drafts and heating vents.

2. SIMPLIFIED WATERING

Check soil moisture. Water thoroughly **ONLY** when the top 1 inch of soil is dry.

Ensure proper drainage; avoid leaving in sitting water.

Note: Herbs may need more frequent watering than larger veggies.

3. PLANTING & HEALTH

Grow in the starter pot or a slightly larger container.

For herbs, regular picking encourages bushier growth.

Watch for signs:
Vibrant, firm leaves mean health.
Yellow/Drooping leaves indicate water or light imbalance.

**The Burpee quality you trust, with Pure Beauty Farms expert care.
Get ready for a delicious harvest!**

**Thank you for ordering from Pure Beauty Farms.
Your plant was carefully grown and shipped with love. Now it's
your turn to help it settle in!**
