

PERGO LIFE

PERGO® HIGH-PERFORMANCE WOOD — REALLY TOUGH, REALLY BEAUTIFUL FLOORS BUILT FOR REAL LIFE.

Life never stops.

So Pergo handles just about everything.

Home is where the heart is. And everything else for that matter. It's an office, a school, a sports arena, a disco, and much more. That's why Pergo flooring is made for people who really live on their floors. Dents, scratches, stains, and spills are no problem because these floors are built to stand up to life's everyday accidents. Thanks to premium construction and exclusive technologies, our floors are made to take it all. So, bring it on ... kids, pets, messes. Pergo flooring is tough enough to take it, leaving your life worry-free.

Choose high-performance Pergo floors.

You'll be glad you did.

High-heeled shoes, cat claws and dog paws, art projects, kitchen mishaps — the floors in your home face tough challenges. With Pergo floors, you can have the authentic look and feel of classic hardwood without giving up any of the performance your life needs. In addition to being waterproof, wearproof, and stainproof, our floors offer incredible scratch resistance.

Pergo floors are made from wood and built on a platform for added strength and stability. They feature a decor printed with a high-definition process and advanced embossing and texturing techniques to make the planks look and feel like genuine solid hardwood. These floors range in thickness, but the premium-quality core provides a more stable floor and a more natural sound. Pergo floors feature a protective surface coating for superior durability with guaranteed performance against water, stains, and wear.

HOME DEPOT FEATURES A RANGE OF PERGO HIGH-PERFORMANCE FLOORS WITH PRICE POINTS TO FIT ANY PROJECT.

Waterproof vs. Waterproof and Water-Tight

Many laminated or engineered wood floors and luxury vinyl floors offer waterproof protection; however, the technologies are not all the same. While luxury vinyl planks feature a plastic-based core and are waterproof throughout, the wood-based floors use a waterproof surface to protect the core like a raincoat.

In both cases, if the floor's joints are not water-tight, liquids may still be able to leak through and cause damage to the subfloor underneath. No matter what type of waterproof system is used, if the joints of the floor are not water-tight, liquids can get through. Pergo floors offer SpillProtect technology — a top-down waterproofing system that combines a waterproof coating with water-tight joints that lock liquids on top of the floor.

Durability

Pergo floors offer superior performance when resisting stains and wear. Even paint and nail polish can be cleaned away with the appropriate cleaners. (See warranty for complete details.) The premium-quality core material allows for added stability, and the surface textures offer a more natural feel when standing or walking.

Authentic Wood Looks

Pergo floors use a high-quality printing process and embossing and texturing techniques to create planks that look and feel like genuine hardwood. So it's hard to tell the difference between a Pergo floor and solid hardwood.

You'll find these great features on our flooring collections:

SpillProtect Waterproof Technology

Pergo floors with SpillProtect stop water really fast. That's because it provides top-down waterproof protection for your floor. It's a total waterproof solution built into every plank. A proprietary combination of ultra-tight locking joints and a water-repellent coating keeps spills on the surface of the floor so they won't seep into the core and damage the planks.

Antimicrobial-Protected Flooring

Antimicrobial properties are built in to protect the floor.

Lifetime Pet Scratch Warranty

Our Pet Scratch Protection Warranty is built on cutting-edge scratch technology, specifically engineered to withstand the playful paws of your beloved pets.

Floating floors and underlayment — they're the perfect pair.

PERGO FloorMate®

EASY INSTALL FAN-FOLD UNDERLAYMENT WITH MOISTURE BARRIER.

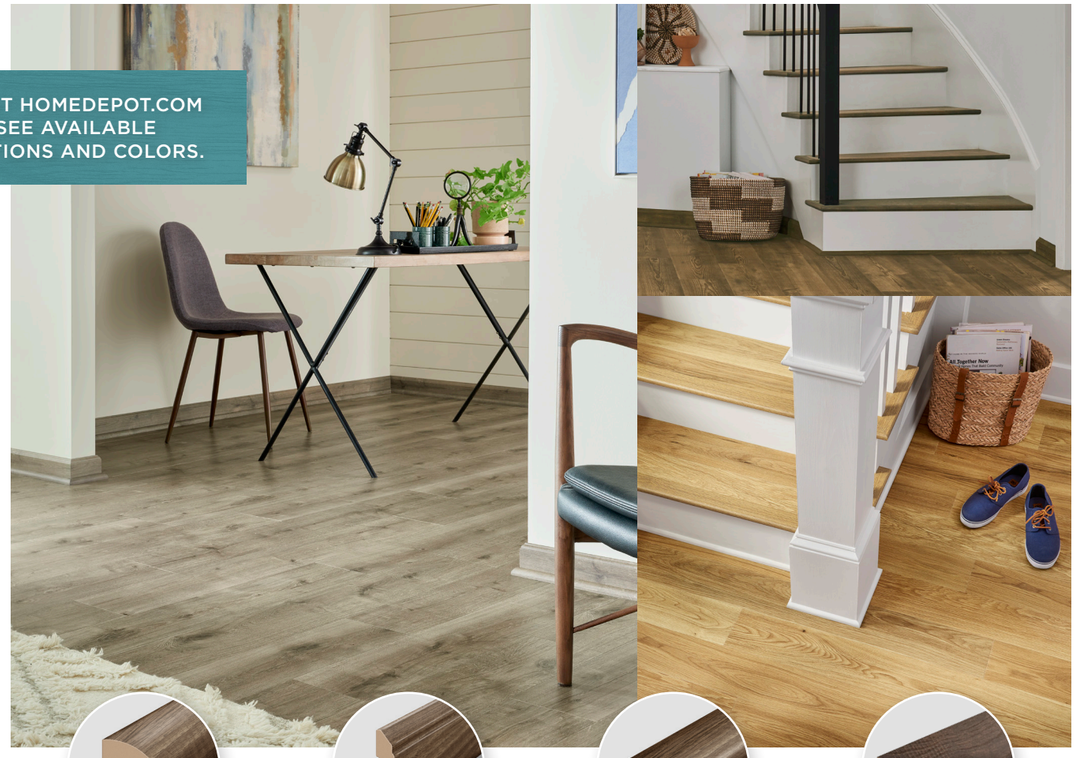

It's easy to forget underlayment when buying floating floors, but it's essential for flooring without attached pads. And for floors with an attached pad? Well, it makes them even better.

Pergo FloorMate® underlayment can increase the comfort and performance of your floor by providing additional insulation and moisture protection. So when you choose your new Pergo floor, pick up Pergo FloorMate. Because this perfect pairing makes a better floor. It's the only underlayment approved for use with Pergo floors with an attached pad.

Your floor performs better with Performance Accessories® products.

Your floor isn't finished without the appropriate moldings and trim. They cover the gap between your floating floor and a wall or architectural detail and help transition between thresholds or different types of flooring.

VISIT HOMEDEPOT.COM TO SEE AVAILABLE OPTIONS AND COLORS.

QUARTER ROUND

Available in coordinating colors and paintable white.

WALL BASE

Available in coordinating colors and paintable white.

STAIR NOSE

Provides a matching surface for the stair's leading edge and covers the gap between the riser and the tread.

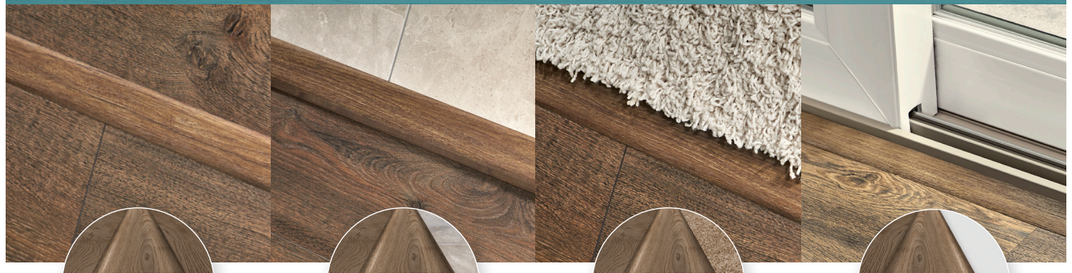

STAIR TREADS

Seamless, one-piece solution that installs over stairs with or without existing nosing.

MULTIFUNCTIONAL TRANSITION One kit that can be used in four different ways.

T-MOLDING

Joins two hard surface floors of equal height.

HARD SURFACE REDUCER

Transitions between two hard surface floors of different heights.

CARPET TRANSITION

Finishes hard surface flooring where it meets carpet.

END MOLDING

Finishes a hard surface floor against fireplaces, sliding doors, and more.

PERGO
Life goes on it.®

These floors are built for life. Give us your drops and drips, your pets, your kids. Our floors can take it. Because they're Pergo – a durable, waterproof, laminated wood flooring collection that gives you the beauty of real hardwood without the worries. It's the perfect choice for people who really live on their floors but still want a beautiful home. **For more information** on any of the Pergo laminated wood flooring collections, visit **HomeDepot.com.**
