

VEVOR®

AIR-COLD WATER CHILLER

- 4.5 KW Panasonic Motor
- Intelligent Temperature Control System

6 Tons Air-cooled Industrial Chiller

6 HP & Stainless Steel Water Tank & Intelligent Guarding System

An indoor unit with its own internal 0.5hp process pump. The closed-loop industrial chiller with its own internal insulated 53L reservoir. This chiller is ideal for indoor climate control conditions from 5°C to 25°C. We have designed this chiller with you in mind. Don't overheat when you can beat the heat with our chiller.

- High-Performance Compressor
- Superior Cooling System
- Professional Protection System
- Smart Micro-Computer Control
- Easy Setup & Operation
- Please Note
- If your shipping address is in Canada, please provide the correct phone number and customer broker information.
- If your shipping address is in the United States, please provide a correct phone number.

VEVOR is a leading brand that specializes in equipment and tools. Along with thousands of motivated employees, VEVOR is dedicated to providing our customers with tough equipment & tools at incredibly low prices. Today, VEVOR has occupied markets of more than 200 countries with 10 million plus global members.

Why Choose VEVOR?

- Premium Tough Quality
- Incredibly Low Prices
- Fast & Secure Delivery
- 30-Day Free Returns
- 24/7 Attentive Service

LOW CONSUMPTION MOTOR

Low Consumption Motor

Panasonic compressor runs stably and reliably, has more energy and less vibration, with easy maintenance, and provides a long service life.

PROFESSIONAL FINNED CONDENSER

Professional Finned Condenser

The heat exchange tube of the condenser is aluminum foil and high-efficiency heat exchange red copper, ensuring large cooling air volume.

SMART PROTECTION SYSTEM

Smart Protection System

The chiller contains 6 intelligent protection systems. Motor overload, coil overheating, and freeze-proof protection increase security.

PRECISE LED SCREEN

Precise LED Screen

The aquarium chiller comes with a vivid panel for clear reading. You can control multiple functions with one button, saving time and effort.

EFFORTLESS SETUP & OPERATION

Effortless Setup & Operation

Connect easily in a few steps according to the installation diagram. Our water cooler's inlet and outlet ports are made of brass for long-term corrosion-proof performance.

Built-in Water Pump

With a water pump, you don't need to prepare it yourself. We are providing more significant flow and greater remote use than similar tools.

Specifications

- Power: 220V / 60Hz / 3P
- Regulate Temperature: 5°C - 25°C
- Condensation temperature: 45°C
- Compressor type: Fully Enclosed Vortex
- Compressor Motor Power: 6HP / 4.5KW
- Tank Capacity: 53L
- Cooling Capacity: 18KW / 15480Kcal/h
- Heat Exchange Tube Material: Copper
- Coolant Type: R--407
- Fan Motor Power: 0.36KW
- Pump Power: 0.75KW
- Pump Motor Power: 0.5HP
- Net Weight: 463 lbs / 210 kg
- Item Dimensions (L x W x H): 43.3 x 21.7 x 51.2 in / 110 x 55 x 130 cm

Package Content

- 1 x Air-Cooled Chiller
- 1 x Manual

Dissipate Heat From Industrial Process More Effectively with VEVOR Water Chiller

If maintaining a controlled temperature in a laboratory, manufacturing facility or any other industrial setting is crucial, then you need the VEVOR Industrial Chiller. This machine has its own powerful 6HP compressor to help create a more comfortable working environment for you or your machinery. Unlike other industrial chillers, VEVOR Water Chiller's compressor performance is smoother and quieter. Thus, improving focus and productivity. On top of that, it has a high water flow rate and a larger pipe to facilitate proper water circulation within the chiller, which results in an efficient cooling performance that keeps your machines at optimal operational temperature for better output.

Huge Cooling Capacity to Beat the Harsh Indoor Conditions

Machines, like the engraving machines, especially those rated around 18KW tend to generate a disturbing amount of heat during use. The high heat production can result in a drag on performance and an uncomfortable working environment. To address this key challenge, VEVOR Industrial Chiller comes with a 4.5KW compressor to cool up to 15480 Kcal per hour. Regardless of how harsh your workspace is, this water chiller helps remove heat for a stable and cool surrounding environment to extend your machine's service life and boost its
