

ASSEMBLY INSTRUCTIONS

SKU NO. : HCF-1317-CH 2 Lights Flush Mount

Read instruction carefully prior to assembly

Thank you for purchasing this quality product. Check carefully for small parts which may come loose during shipment. Remove all components from pack and place top down on soft surface such as carpet or cloth to prevent scratching the finish. Identify and count all parts as specified below.

It is recommended to use two or more persons during the assembly process.

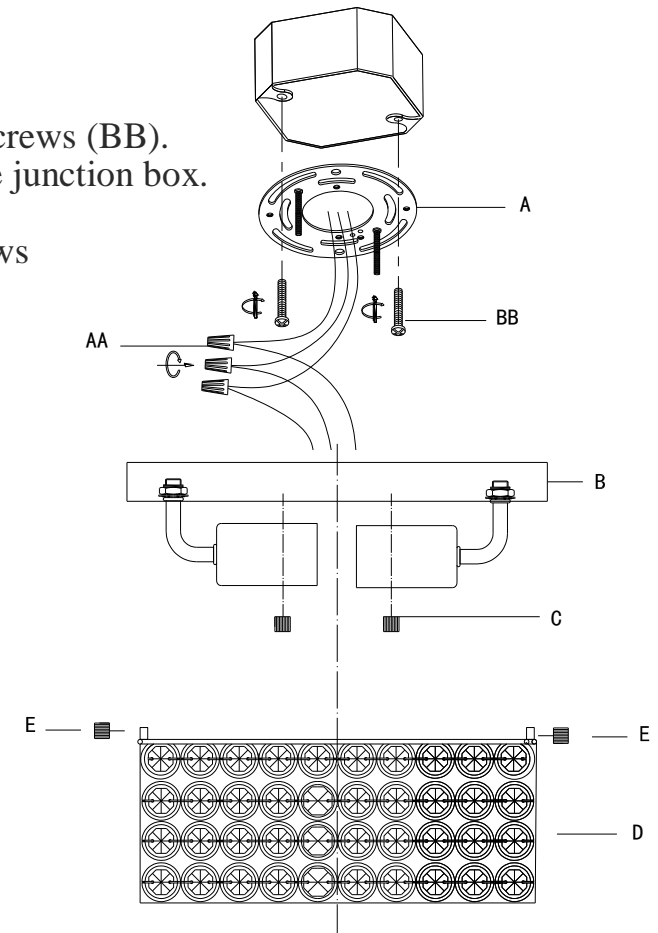

1. Unscrew preassembled canopy nuts (C) from mounting bracket (A).
Attach mounting bracket (A) to the junction box (not included) with two junction box screws (BB).
NOTE: The preassembled screws on mounting bracket (A) should protrude out from the junction box.
2. Make electrical connections using wire connectors (AA)
3. Place the fixture assembly (B) against mounting surface, allowing the preassembled screws on mounting bracket (A) to pass through the fixture assembly (B).
Secure with previously removed canopy nuts (C)
- 4 Install light bulbs (not included). This fixture has been rated for up to
**Two (2) E26 Socket 60-Watt Maximum incandescent Bulbs (not included) or
CFL Equivalent light bulbs (not included) or LED Equivalent bulbs (not included).**
6. Attach shade (D) with the fixture assembly (B) and secure with nuts (E).
7. Restore Electrical power when complete.

CAUTION! IMPORTANT SAFETY INSTRUCTIONS:

Connect the cord with the ribbed surface to the white wire of the supply circuit.

Connect the half with the markings and smooth surface to the black wire of the supply circuit.

Connect the bare copper grounding wire from the fixture to the green screw on the mounting bracket and the grounding conductor of the supply circuit. Use U.L./CSA Listed wire connectors suitable for the size, type and number of conductors. No loose strands or loose connections should be present. MADE IN CHINA
