

User Manual for Wainscoting Panel

General Information

- **Sizes:** 4' x 8' x .032" Wainscot panels.
- **Shipping:** Most products ship with clear protective film or TuffCote™.
- **Quality Note:** Slight imperfections and color variations from sheet to sheet are possible and considered normal. Please inspect each sheet carefully before fabrication to ensure it meets your needs.

Storing

Storage Method: Store flat and acclimatize in the same environment for at least 24 hours before fabrication.

Cutting/Fabricating

Bonding: Like HPL, Structures sheets can be bonded with contact cement, but you must use a product compatible with PVC.

Cutting Tools: Can be cut to size with a razor knife and scissors or with routers, saw blades, and drilling tools for thermoplastics. When fabricating, always cut from the decorated side.

Cleaning and Care

Cleaning Method: Clean only with warm soapy water. Never use abrasive cleaners.

Fire Rating

Class "A" Passing test ASTM E84 (painting voids fire rating).

Installation Method

Glue Up: Simple installation process suitable for DIY projects.

Features

- **Tough & Easy Care:** Wainscot panels stand up to bumps and scratches and wipe clean for hassle-free upkeep.
- **Moisture Shield:** Protect your walls from splashes and spills, especially in kitchens and bathrooms.
- **Room with a View:** Adds visual interest and depth, making your space feel more polished and airy.
- **Flaw Fixer:** Hides minor wall imperfections for a smooth, finished look.
- **DIY Friendly:** Glue-up installation makes wainscoting a manageable project for most homeowners.
