Porcelain Pavers

Porcelain Surfaces for Your Yard or Patio

Corso Italia offers beautiful porcelain tiles for homes, inside and out. With classic Italian design and contemporary American function. Corso Italia meets the highest standards of quality, durability, and sophistication for walls, floors, and outdoor patios.

Corso Italia porcelain pavers have been designed for those looking for the perfect balance between durable and stylish landscaping finishes.

Why Porcelain?

Our porcelain pavers are ***durable***, weather-resistant, virtually ***maintenance-free***, and easy to install. The 3/4" thickness and large format, 24"x24", of our pavers provide ***premium performance*** that can't be found in typical landscaping products.

With Corso Italia porcelain pavers, your patio can become an extension of your indoor living space.

Foresta Brown

FORESTA

Foresta porcelain pavers are inspired from the most precious natural woods. These pavers will bring a new life to your patio with the warm look of aged wood. Both white or brown styles can bring a contemporary or rustic feel to your outdoor living space.

Strength

- *High breakage load: more than 2,200 lbs per paver*
- *Resistant to thermal shock from extreme changes in weather*
- *Coloration and appearance will remain unaltered*

Safety

- *Slip-resistant surface*
- *Fire proof*

Care

- *Virtually maintenance free*
- *Does not need to be sealed*
- *Resistant to moss, mold, pesticides, and harsh chemicals*

Foresta White

Foresta White (24" x 24" x 3/4")

Foresta Brown (24" x 24" x 3/4")

Alpe Grey

ALPE

Alpe porcelain pavers come from valuable and unique stone from a northern Italy quarry. The pavers are characterized by the beautiful design variations. Each bears the look of natural stone that will bring a timeless look to your outdoor patio.

Strength

- *High breakage load: more than 2,200 lbs per paver*
- *Resistant to thermal shock from extreme changes in weather*
- *Coloration and appearance will remain unaltered*

Safety

- *Slip-resistant surface*
- *Fire proof*

Care

- *Virtually maintenance free*
- *Does not need to be sealed*
- *Resistant to moss, mold, pesticides, and harsh chemicals*

Alpe Greige

Depending on your DIY preference, our porcelain pavers can be installed three different ways. For complete installation details, visit www.corsoitalia.com

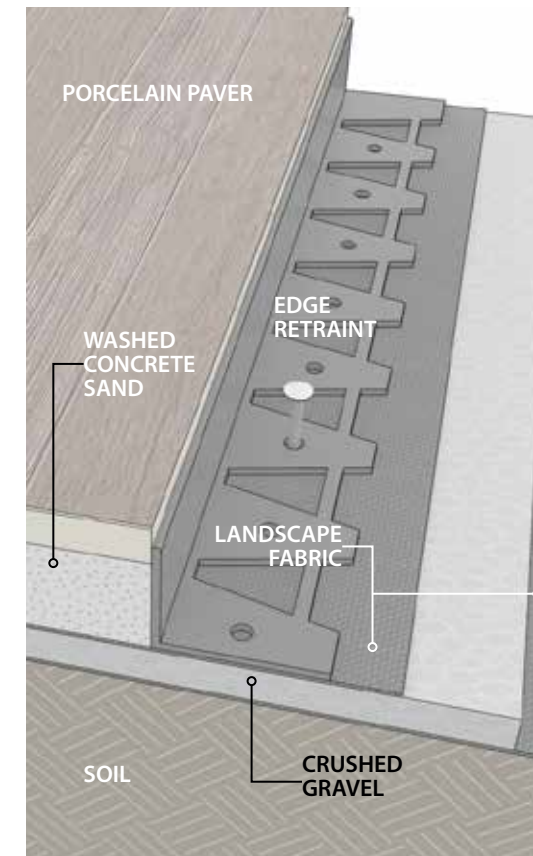

Before undertaking any project, be sure to familiarize yourself with the materials and tools that will be necessary to complete the project correctly and safely.

A few things to consider before beginning:

- Do I have enough materials?
- If your project requires digging, did you call your local utilities "Call Before you Dig Hotline"?
- Do you have assistance available to move heavy items?
- Do you have protective gear such as safety glasses, gloves, back support etc?
- Did you consider the subgrade material and how it will impact your installation?
