

Bosch Dishwashers

The ultimate clean.
The ultimate dry.

CrystalDry™

Patented CrystalDry™ technology delivers 60% better drying results*, including plastics.

How it works:

After the final rinse, the warm, humid air is transformed into hot, dry air reaching 176°F. That hot dry air is then circulated throughout the dishwasher to deliver the ultimate dry, even for plastics.

Benefits:

- Delivers 60% better* drying results, including plastics.
- CrystalDry™ Option can be selected for each cycle.
- Plastics can still be safely washed and dried on the bottom rack or anywhere in the unit.

*Based on aggregate average drying performance of Bosch Dishwashers with CrystalDry on combined household load including plastics, glass, steel, and porcelain as compared to Bosch Dishwashers with PureDry. Drying performance may vary by dish type.

AutoAir™

A little fresh air,
for a lot better dry.

How it works:

AutoAir™ on the new Bosch dishwashers automatically releases the door at the end of the cycle to let moisture escape and fresh air in for drier dishes.**

Benefits:

- AutoAir™ Option can be selected for each cycle.
- AutoAir™ Option results in drier dishes.**

**Compared to Bosch Dishwashers with PureDry

Did you know?
For best results, always use a rinse aid.

PureDry™

All Bosch dishwashers have PureDry™, a condensation drying system that efficiently dries dishes.

How it works:

The final rinse uses high temperature water to heat the dishes. The stainless steel dishwasher tub cools faster than the dishes, so the moist air gathers on the tub sides and leaves dishes dry.

Benefits:

- Plastics can still be safely washed and dried on the bottom rack or anywhere in the unit.
- This closed drying system is very energy efficient, since it does not contain a heating element to dry the dishes.

The quietest dishwasher brand in the U.S.***

With models as low as 38 dBA, Bosch is the quietest dishwasher brand in the U.S.*** We approach noise reduction from every angle, incorporating 18 unique sound-reducing technologies.

*** Based on an average of sound ratings of 24" Full Size Stainless Steel Tub dishwashers contained in major brands websites. Major brands defined as TraQline Top 5 Market Share December 2018.

Quality is in the details.

The ultimate clean with PrecisionWash™

With Bosch PrecisionWash™, intelligent sensors continually scan and check the progress of dishes throughout the cycle, and powerful, precision spray arms go to work targeting every item of every load.

485 quality checks

Every Bosch dishwasher must pass 485 stringent quality checks—including running every single one with water—before leaving our factory.

EasyGlide™ rack system

For a level of quality you can both touch and feel, we've incorporated smooth-rolling ball bearings to our rack wheels. The result is a smoother glide that opens effortlessly—even with a fully loaded rack—for a more premium feel with every pull.

24/7 AquaStop® Leak Protection

AquaStop® is an advanced leak prevention and containment system with sensors that automatically close the water inlet and activate the drain pump if a possible leak is detected in the base- even when you're not at home.

Maximize loading space without sacrificing it elsewhere.

Select the 3rd rack that best fits your needs.

MyWay™ rack

MyWay™ offers more room for more kinds of items in the top rack, such as cereal bowls, whisks, tongs and large measuring cups, creating more freedom in loading below.

Flexible 3rd rack

Expandable wings easily lower to accommodate more of your deeper items, while adjustable tines let you customize the rack's loading space to fit awkward or bulky utensils.

Standard 3rd rack

Provides the perfect space for flatware, large utensils, measuring cups, or nearly anything else that's difficult to fit in a traditional dishwasher, while its V shape leaves room below both sides for taller items like stemware in the middle rack.
