

quietwall™ by HYTEX

QuietWall™ Noise Control Textile Wall Covering Panels are a great choice if you want noise reduction and forward-looking design at a great price. Five 54"x8 yard panels are cut with the "perfect cut" system and attach to the wall using heavy wallpaper paste, which ensures easy, durable, and beautiful installation. The only tools you will need to install are a measuring tap, chalk line, utility knife with a sharp blade and a contractor square.

Each panel has built in **Fosshield®** antimicrobial protection to fight the growth of stain and odor causing bacteria, as well as mold and mildew, which makes them perfect for kids and pets.

The panels are easily maintained by vacuuming or sweeping. Spots or stains can be removed with mild detergent. It is ideal for home offices, playrooms, basements, and home theaters.

The durable and soft to the touch panels are made from 100% **Eco-fi®** recycled polyester so you can be comfy and stylish while still being environmentally responsible.

Panels are available in 14 colors allowing you to customize your space to reflect your personality and lifestyle.
