(if building over soil)

- RAKES**
(if building over soil)

- LANDSCAPE FABRIC**
(if building over soil)

- GRAVEL**
(if building over soil)

Purchasing a 10% overage of the materials listed is recommended. Additional materials, LEVEL.UP Adjustable Deck Pedestal Kits, LEVEL.UP Accessories, framing angles & fasteners may be required if slope exceeds 2%, you are building against an existing structure or a different design is required to meet desired outcome. Information to support these possible designs and building information can be found at www.LEVEL-UPDECKING.com.
